Our T2 Lane Consultation
Our Results

• 70% of all 97 respondents supported the introduction of a westbound T2/bus lane on Pakuranga Road.
• 76% of the 66 respondents aged 13-24 supported the introduction of a westbound T2/bus lane on Pakuranga Road.
• 93% of public transport user from 28 responses supported the T2/bus lane and 56% of car users from 59 responses.
Why Higher Fares Hurt

- Youth are negatively impacted by higher fares as we are more reliant on public transport. We also generally have less money to spend on transport and so fare rises make this more difficult.
- We believe that Auckland Transport should aim to lower fairs, especially the youth and student rates.
- We’re supportive of the Auckland Council putting more money into Auckland Transport so they can keep fares low.
Our Other Requests

Large parts of East Auckland remain without regular local bus services. In parts of Bucklands Beach, Howick and Cockle Bay getting to a bus stop is a long walk.

The train networks run at 20 minutes intervals of peak which is problematic for East Auckland Transport users who are meant to catch the train from Panmure.

We remain concerned around the regularity and capacity of the 70 and 72 routes that can reach overcrowded levels at peak times.
