

Waitematā Performance Measure Results

1. Introduction

- The year-end outlook is for 50 per cent of targets to be achieved.
- The year-end outlook shows we are unlikely to achieve the target for percentage of residents who visited a local park or reserve in the last 12 months. Promoting our parks and facilities is one strategy being used to help increase the proportion of the population who visit local parks.
- We are expecting to fall short of the target for percentage of visitors satisfied with the library environment. Customer feedback included requests for more designated quiet spaces, more seating and better parking. The year-end outlook also has us falling short of the target for town centre safety during the day, although significant work has been done in the local board area to improve the perception of safety. As Ellen Melville Centre is closed for refurbishment this quarter, we are not expecting to achieve the target for off-peak community facility utilisation.

How we measure performance

The following symbols are used to indicate our progress against targets set in the Long-term Plan 2015-2015 (LTP).

Achieved Target has been met or exceeded	Substantially achieved Target has not been met by a slim margin	Not achieved but progress made Target has not been met but the result is an improvement from the prior year	Not achieved Target not achieved and prior-year result has not been improved	No result The measure was not surveyed or no result was available

Other considerations

Target setting

Performance measure targets are different for each local board. It is important to remember this when comparing results presented in the summary performance results table. Targets were set by considering service expectations as well as previous performance results.

As new performance measures were introduced in the Long-term Plan 2015-2025, some of the measures had no previous performance results. This made it challenging to set some of the targets. We will continue to refine future performance targets in the next long-term plan (for 2018-2028).

Results timeframe

We collect results at various frequencies, based on the nature of each performance measure. Customer satisfaction is currently measured by annual surveys, so we cannot provide a quarterly result.

The six performance measures in this report that have Q1 results are based on the actual results for July and August, and an estimate of September results. This was done to ensure timely information could be provided.

Year-end outlook

Each performance measure has been given a year-end outlook. This is our best estimate of what the result will be at year end, based on prior-year results and work that is underway.

2. Summary of FY16 performance results for each local board

Local board area	Local community services (Community)				
	Number of library visits	Satisfaction with library service	Perception of town centre safety – day	Perception of town centre safety – night	Venue utilisation – peak hours
Albert-Eden	✓	✓	✗	✗	✗

3. Detailed Q1 performance measure results

Local Parks, Sport and Recreation

- Percentage of residents who visited a local park or reserve in the last 12 months

A recent change to the survey question provided a way for participants to easily identify which parks belong to their specific local board area. This may help to explain the decline in performance, as many residents live near the fringes of their local board area and use parks in other areas. In FY17, promoting our parks and facilities is one strategy being used to help increase the proportion of the population who visit local parks.

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
2. Percentage of residents satisfied with the provision (quality, location and distribution) of local parks and reserves	✓	75%	Measured Annually		82%
3. Percentage of residents satisfied with the provision (quality, location and distribution) of sports fields	✓	75%	Measured Annually		80%
4. Customers Net Promoter Score for Pool and Leisure Centres	✓	+ 15	Measured Annually		+ 45

Local Community Services

- Number of visits to library facilities per capita

The targets for library visits are based on aspirational growth. However, visits have declined in the Waitemata Local Board area; the number of library visits could not keep up with population growth. Library visits have also decreased for Auckland as a whole as more people access library collections and services online.

6. Percentage of visitors satisfied with the library environment

Customer feedback included requests for more designated quiet spaces, more seating and better parking. Central City Library has refurbishment plans, including upgrades to furniture, fittings and technology. Parnell Library has just had furniture and fittings renewed. Grey Lynn Library will undergo a refurbishment this financial year. This will include a change in layout, new soft furnishings and the provision of study desks with access to power points

7. Percentage of funding/grant applicants satisfied with information, assistance and advice provided

FY16 was the first year of implementing the new community funding policy, which also saw the establishment of a dedicated funding hub. Funding hub members also worked closely with subject matter experts to reach relevant communities. A series of community workshops is planned for FY17 to build community groups' capacity to submit quality applications and to provide further advice to applicants.

8. Percentage of Aucklanders that feel connected to their neighbourhood and local community

People may not be feeling connected for a variety of reasons, including being new to the area, being too busy or preferring not to be connected. To a lesser extent there may also be lack of awareness about how to access activities that could contribute to feeling connected, and language and cultural barriers. A number of our activities such as arts programmes, community facility programmes and events seek to connect Aucklanders to their local communities. The empowered communities approach being implemented across these activities in FY17 aims to increase this.

9. Percentage of attendees satisfied with council delivered and funded local events

This measure aims to survey at least two events annually for each local board area to assess attendees' views on a sample of events provided or funded by the council. Each year different events are selected to be surveyed, and as this decision has not been made yet, it makes it difficult to establish a forecast. However, if performance remains consistent with the previous year then the target will not be met. Feedback received from the previous year will be used to improve this result. The outlook has been based on last year's result. This year's result will depend on what events are delivered, what events are selected for survey, the weather conditions, turn out and facilitation.

10. Percentage of Aucklanders that feel their local town centre is safe (day)

This measure is influenced by a number of elements such as crime rates, the built environment, and socioeconomic and other similar factors. The council undertakes projects and initiatives at a community and social development level to improve perceptions of safety. Significant work has been done in the local board area to improve the perception of safety. In FY16, the Myers Park Medley event was held, promoting park use. In Albert Park significant work has been undertaken to make the park a safer place.

11. Facility Utilisation - utilisation at peak times and off-peak times for council managed community centres and venues for hire (off peak)

The FY17 Q1 result is based on two months of actual data and one month of estimates. Utilisation is lower than the previous year due to the Ellen Melville Centre being closed for refurbishment this quarter. The digital booking system, which began recording bookings in FY17 Q1, is expected to improve customer experience and utilisation, along with a marketing campaign in Q2.

12. Number of visitors to community centres and venues for hire

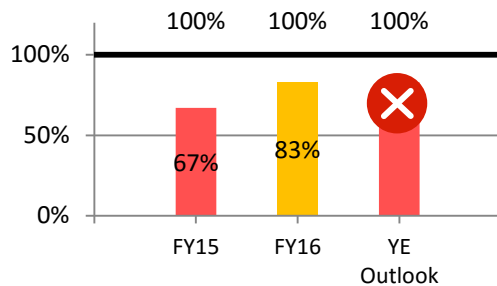

The FY17 Q1 result is based on two months of actual data and one month of estimates. Visitor numbers are lower than previous year due to the Ellen Melville Centre being closed for refurbishment this quarter.

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
13. Use of libraries as digital community hubs: Number of internet sessions per capita (PC & WiFi)	✓	10.0	4.2	2.5	13.7
14. Percentage of customers satisfied with the quality of library service delivery	✓	85%	Measured Annually		88%

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
15. Percentage of participants satisfied with council delivered local arts activities		90%	Measured Annually		88%
16. Percentage of Aucklanders that feel their local town centre is safe (night)		36%	Measured Annually		36%
17. Facility Utilisation - utilisation at peak times and off-peak times for council managed community centres and venues for hire (peak)		25%	29%	25%	28%
18. Percentage of community facilities bookings used for health and wellbeing related activity		20%	28%	20%	19%

Local Planning and Development

19. Percentage of Business Associations meeting their Business Improvement District (BID) Partnership Programme obligations

Uptown BID, Heart of the City BID, Newmarket BID, Parnell BID and Ponsonby BID currently meet all of their accountability requirements under the BID Policy. K Road BID currently meets all requirements of the BID Policy apart from sharing its strategic plan with the council and local board.

Local Environmental Management

Performance measure	YE Outlook	YE Target	FY17 Q1 Result	FY17 Q1 Target	FY16 Result
20. Proportion of local programmes that deliver intended environmental actions and/or outcomes		85%	Measured Annually		100%
