<b>Project title</b>	Estuary Art Awards 2017: Public Programmes		
<b>Dates</b>	17/06/2017 - 08/09/2017		
<b>Location</b>	Malcolm Smith Gallery and various locations		
<b>Summary</b>	<p>The Estuary Art Awards are now in their 11th year and are central to programming at Malcolm Smith Gallery. Alongside the exhibition we aim to create a series of complementary events that will encourage communities to engage with the environment in a purposeful way. This year we are creating two events that will be located outside of the Gallery. The first will bring an artist into a local school and give young learners the opportunity to work with a creative practitioner to creatively learn more about concerns relevant to the Estuary. The second event will continue an annual tradition of hosting a Clean Up Day that will actively promote neighbours of the Estuary to look after their local environment.</p>		
<b>Focus specific information</b>	<p><b>Environmental benefits:</b> The clean-up of the Tamaki Estuary, specifically, will contribute to cleaner waterways and coastlines. The workshop will create closer connections with the local environment for students and encourage an ongoing relationship with the area.</p> <p><b>Community involvement:</b> Environment groups, visitors to the Gallery, young community members, patrons of the Gallery, neighbours of the Tamaki Estuary.</p> <p><b>Land owners:</b> Auckland Council</p> <p>A continuation of previous work</p>		
<b>Cost of participation</b>	No		
<b>Requesting grant for</b>	We are requesting funding for both events to cover participant professional costs and materials for workshops.		
<b>Active participants</b>	150	<b>Audience size</b>	250
<b>Promotion of activity</b>	Yes, Flyers within the local area, media spots in local newspapers, online through social media and our website.		
<b>Local board recognition</b>	The local boards' logo will be placed on all printed material. Members of the local board will be invited as honorary guests to our events, including the private Estuary Art Awards exhibition opening and awards ceremony.		
<b>Alignment with local board priorities</b>	<ul style="list-style-type: none"> <li>• community-led projects and activities</li> <li>• local arts and culture programmes</li> <li>• protecting ecologically significant coastal areas, other natural habitats and waterways</li> </ul> <p>This programme of events looks to draw attention to the local environment through creative thinking and responding to the relationship we have with our surroundings. The programme of events will enable communities to engage with their neighbourhood and understand more about our responsibility to take care of the Tamaki Estuary.</p>

## Demographics

<b>Maori outcomes</b>	Yes, Central to the programmes is the idea of environmental protection, kaitiakitanga. The events acknowledge that Māori cultural practices have a strong environmental basis and people of the area understand the obligation to protect the natural world. We will be ensuring the events relate to these concerns and will be working with the community to be respectfully interacting with the environment.
<b>Accessible to disabled</b>	Yes, All people will be encouraged to participate in our Clean Up Day, there will be as few barriers to accessibility as possible.

#### Project details

<b>Project title</b>	Te Arawa Local Food Project		
<b>Dates</b>	30/06/2017 - 31/12/2017		
<b>Location</b>	Te Arawa Street (berms around the street)		
<b>Summary</b>	<p>Our project is focussed on planting, nurturing and harvesting fruit trees planted along the berms in our street. The purpose is to engage the local community in food production and building knowledge of growing fruit and harvesting. It is a hands-on activity which also fosters more connection across our neighbourhood. The fruit trees planted will beautify our streetscape and grow food for locals who need or want it. We have garnered interest through our neighbourhood group and we have a small group of people who are willing to plant, tend and ensure nothing is wasted. Our hope is this project could grow in the future to involve more of the Orakei community and more parts of the local environment.</p>		
<b>Cost of participation</b>	No		
<b>Requesting grant for</b>	Buying the plants and compost, the labour and tools will be provided by the community.		
<b>Active participants</b>	15 - 25 people	<b>Audience size</b>	Approx 50 very local residents, hundreds who pass through the street and see this local environment
<b>Promotion of activity</b>	Yes, We will promote the project and its progress throughout our local community networks via email, social media, local school and print. We will issue open invites for anyone locally who has interest in learning and taking part in the different parts of the process. The trees themselves are also a communication tool and we could create signage that talks about the project.		
<b>Local board recognition</b>	We will acknowledge the support that Orakei Local Board has provided the project in all of our communication. We will extend invitations to the Local Board to participate in the planting and harvesting. Put a sign acknowledging the support in our street where the trees are planted.		
<b>Alignment with local board priorities</b>	<ul style="list-style-type: none"><li>• community-led projects and activities</li><li>• an active and healthy local community</li></ul> <p>This project supports our local community to plant, grow and harvest fruit from trees we will plant on the berms along our street. It supports collaborative activity by members of our street community to generate locally produced food that is available to our neighbourhood. We will learn new skills together on how to effectively grow fruit trees, create better connections around the street through working together to grow the food and harvest/use the fruit. Our environment will be more beautiful and more productive. This activity will get people active helping to nurture these trees together and appreciate healthy food.</p>
