

Dear Auckland Local Boards Project Team,

Spray Free Streets Spray Free Streets has created a campaign entitled **Draft Local Board Plan Feedback: Stop spraying chemical herbicides in our streets and parks** on [TOKO](#) that identifies you as the decision maker.

Dear Local Board Chair and Local Board Members

Please stop spraying chemical herbicides in our streets and parks. The World Health Organisation has classified Glyphosate as carcinogenic, neurotoxic and an endocrine disrupter. Doctors and scientists have observed a big increase in disorders such as Autism, Cancer, Childhood Non Hodgkin's Lymphoma and many others that are attributed, in part, to chemical exposure. I would be greatly appreciative if Council would change to cost effective alternative methods such as Hot Water Technology, pine oil and coconut oil and stop its use of chemical herbicides to allow the people of Auckland to live in good health and without fear and anxiety. Streets are our biggest concern because the spray drift surrounds our homes.

This feedback expresses my personal views and is not feedback from any organisation.

I wish to be contacted by email about this.

Kind regards

Thank you for your attention.

The TOKO team, Spray Free Streets Spray Free Streets
