

Downtown and waterfront corridor - coordinated delivery of high quality streets to support private and public development and events, with high quality public transport to the east and west. Removal of parking from eastern Viaduct and replacement of Wynyard Crossing bridge.

Midtown - coordinated delivery of two great city streets, the Wellesley Street 'bus boulevard' and Victoria Street linear park. Create quality pedestrian experiences as part of public transport improvements

Central Wharves - staged delivery of additional waterfront public space and new ferry infrastructure, and the need for further cruise infrastructure in the medium-long term

Wynyard Quarter – realignment of Headland Park to better link with Victoria Park and Daldy Street greens spaces and create more feasible development packages
