Te Mahurehure Cultural Marae Society Inc

Marae	Te Mahurehure Cultural Marae Society Inc
Physical address	73 Premier Ave Pt Chevalier Auckland 1022

Requested amount	\$57,679
Requesting funding for	Heating & carpet for hall area, dining area, mezzanine area and sleeping area top level.
Nature of funding	Capital infrastructure (includes purchase of asset & installation / build)
Project Manager	John Panapa

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	The Marae already has compliance with building and health and safety requirements. By having heating and carpet this will give the Marae the extra warmth that is necessary in the colder months when whanau and the wider community come to stay at the Marae.
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	This investment from the Auckland council to help the Marae with heating and carpet would help us to finish and complete this project. The Marae has not received any funding towards our build since 2010 and we are needing this heating so that when the people use the facility they will be warm in the future.
Local Board and community support	
Does this project have support from your local board and / or local community and /or mana whenua?	Te Mahurehure Marae does not get any funding from the local board, iwi or mana whenua. All our income is generated from the hireage of the Marae. As you know being in the heart of Auckland it is very costly but our whanau all get together to help out in any way possible.
Sustainable, accessible, adaptable, future-proofed	
This project will:	Meet future needs, incorporate energy / resource efficient design features and materials
Demonstrate how the facility will meet the present and future needs of users	
Yes this project will meet future needs in regards to heating and carpet supplied.	
Insurance	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	Yes we do.

Funding history

Application ID	Project title Round - Stage	Decision Total allocated
QR1701-257	Anzac Day 2016/2017 Albert-Eden Quick Response, Round Two	Approved \$500.00

Maori Trust Board O Te Maraе-O-Manurewa

Marae	Manurewa Maraе
Physical address	81 Finlayson Avenue Clendon Auckland 2102

Requested amount	\$150,000.00
Requesting funding for	With the funding we would like to <ul style="list-style-type: none"> - Purchase a 20 tray oven, that would include all installation costs (plumber, electrician, labour) and Rangehood -Install the Watercare Connection through Watercare, for our new ECE centre, which we plan to open in 2018 -Replace some spouting and downpipes and fix the roofs on the 3 main buildings (whare) of the Maraе
Nature of funding	Capital infrastructure (includes purchase of asset & installation / build), Maintenance (includes materials and labour)
Project Manager	Lorraine Byers

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	<p>Currently we have health and safety issues, whereby water is found inside the buildings when it has rained the night before. This is a health and safety issue as is always hazardous. Also the downpipes are overflowing when it rains, and huge puddles are falling from the roof, which is also very dangerous.</p> <p>We also have damage on the floor of our big Wharekai (Matukutureia) due to the rain leaks in the roof.</p> <p>We have been advised also by Choice catering the oven rangehood above our existing oven in Matukutureia (big kitchen) is out dated and they do not approve of this style any longer.</p>
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	<p>This investment will support us to complete the main priority items for Manurewa Maraе to enable the Maraе to be functional and operate safely. The oven replacement will allow the marae to cater for much bigger groups, in Matukutureia with a quality rangehood. We have wasted a lot of money on servicing the existing oven, and it is time to replace them, as they are very old. The funding to fix the 3 roofs, spouting and downpipes will be completed, the oven will also be a fund to completion, and the water connection will be readiness to proceed.</p>
Local Board and community support	
Does this project have support from your local board and / or local community and /or mana whenua?	<p>This project has support by the Manurewa Local Board and the local community. Through the homeless kaupapa the local board and community have been very supportive in ensuring our Maraе was up to scratch with its maintenance requirements and health and safety. This is the follow on from Whakapiki Ora, which at the time we could not afford to complete. Having all the 3 roofs of the 3 whare (wharenuui, and 2 wharekai) fixed without leaks, will ensure that we can continue to</p>

	<p>provide the community with a Marae that is thriving and prosperous. At Manurewa Marae we have approximately 15000 contacts p.a. with the community through our services and connection with the community. Our community is an important part of the Marae, and could not exist without each other. We are very well supported by the community and organisations who work collaboratively with us in working to develop our community.</p>
<p>Sustainable, accessible, adaptable, future-proofed</p>	
<p>This project will:</p>	<p>Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities</p>
<p>Demonstrate how the facility will meet the present and future needs of users</p>	
<p>Manurewa Marae is the hub of Manurewa. It offers free health, youth, and educational programmes and services that are culturally appropriate to the community. Our Marae is available to support whanau in need for tangihanga, hireage for special occasions, and community events. This project will enable the Marae to continue providing support and services to kaumaatua, tamariki, disabled, youth and all vulnerable families of our community. Our next project following this one is to investigate solar panels for the marae to become more efficient with our energy use, and therefore promoting it with our community. Our marae is very adaptable for a wide range of activities, including Whakapiki Ora, an initiative which we ran for 3 months, in supporting over 200 homeless people (Jul to Sep 16), and with the support of MSD were able to accommodate them all. We have continued supporting those whanau with whanau ora wrap around services. Our marae is diverse and we are open to working with all different ethnic groups of all ages.</p>	
<p>Insurance</p>	
<p>Do you have an insurance policy for the marae? If currently an empty site please state N/A</p>	<p>Yes they are made up of the following:</p> <p>Insured Entity Manurewa Marae Address Insured 81 Finlayson Road, Manurewa Insurance Policy Dates 12 December 2016 – 12 December 2017 Insurer NZI and Vero Liability Insurance Business Activities Marae, Childcare, Social Services (Youth) & GP Services Items Insured Buildings - \$10, 010,000 (Replacement Value) Gross Profit – Wages - \$125,069 Excesses Standard \$500 increasing to \$1,000 for burglary, malicious damage and \$2,500 theft 24 Hour Standown Period – Business Interruption Trustees Liability Limit of Indemnity \$1,000,000, Nil (Clause A) \$10,000 (Clause B) Public Liability Limit of Indemnity \$1,000,000, excess \$500 Statutory Liability Limit of Indemnity \$1,000,000, excess \$500 Employers Liability Limit of Indemnity \$1,000,000, excess \$500 Natural Disaster</p>

	Insured Annual Cost \$48,306.26
--	---------------------------------------

Funding history

	Manurewa Local Board – Marae Development	Approved 2015 - \$25,286

Auckland Tūhoe Society Incorporated Trading As Te Tira Hou Marae

Marae	Te Tira Hou Marae
Physical address	2A Caen Road Panmure Auckland 1072

Requested amount	\$150,000.00
Requesting funding for	Replacement of steps, decks, ramps, bench seating, add handrails, install a gutter system, replace existing fibreglass corrugate roofing and flashings, demolition of carport structure and rebuild.
Nature of funding	Maintenance (includes materials and labour)
Project Manager	Kiri Elaina Maaka

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	<p>Yes this project will certainly comply with the Building Act and Health & Safety requirements. We have endeavoured to prioritise the project in phases, whereby those areas needing action immediately sets presidency over other areas and so on and so forth.</p> <p>It will inevitably, give the Marae Committee & Trustees peace of mind, knowing that immediate Building and Health & Safety issues will be addressed. That all people utilising the Marae will have a sense that their well-being, wairua (spirit), hinengaro (mind) tinana (body) will be well taken care of in the Marae environment.</p>
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	<p>Yes absolutely the investment from Auckland Council will certainly enable the project to continue into the next phase or/and completion of the project.</p> <p>Ultimately, it will give all our whānau, friends and associates piece of mind, of knowing that the Marae Trustees and Committee Members took the initiative to prioritise Health & Safety maintenance needs.</p> <p>Having safe ramps & walkways, manuhiri, kaumatua, kuia shelters, roofing, cladding. Keeping all our visitors safe from the elements, i.e. rain, hail or sunshine.</p> <p>Promoting Health & Safety needs of all people who will utilise our Marae for their specific event, occasion. Having clear signage around the Marae premises i.e. hurricane fence and stone wall "DANGER KEEP OFF THE FENCE & STONE WALL". Processes, Procedures, Report documents for "Near Miss" - Accidents & Emergencies, recorded. All report documents addressed by Marae Committee to resolute, respond & repair action required where applicable.</p>

Local Board and community support

Does this project have support from your local board and / or local community and /or mana whenua?

Yes, the marae has support from Mana Whenua - Manurewa Marae Tanui Waka, Anthony Hawke Hapai Te Hauora Māori Public Health.

Sustainable, accessible, adaptable, future-proofed

This project will:

Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities

Demonstrate how the facility will meet the present and future needs of users

To all visiting groups & organisations utilising the Marae, their Health & Safety needs are and will be paramount at all times. Presently the Marae facilities are being used by varying groups and organisations; the feedback the Marae Committee receives is nothing but praise and welcomed positive compliments.

The Marae will now and into the future ensure that all people utilising our Marae will feel safe knowing that the Marae has all Health and Safety Procedures and Processes clearly in place where everything is accessible at all times.

Those Procedures and Procedures will be clearly demonstrated on the arrival of every visiting group and prior to the arrival from the initial booking enquiry to the Booking Officer of the Marae. Every Booking Enquiry has the Marae Rules & Regulations attached or given to every visiting group if booking is made in person.

Everything on the Marae will be work in progress prioritising, ensuring, acknowledging and addressing areas of need.

Insurance

Do you have an insurance policy for the marae? If currently an empty site please state N/A

Yes, the Marae is currently Insured. Please see Insurance File attached.

Funding history

	Te Uru Taumatua - Raupatu Whenua - Funding was not applied for. This was an entitlement which stemmed from the Deed of Settlement for Ngai Tuhoe.	Approved \$25,000

Kaipatiki Community Facilities Trust (Uramo Maramga Ake Charitable Trust)

Marae	Uruamo Maranga Ake
Physical address	(Proposed site) Shepherds Park Cresta Ave Beach Haven Auckland 0626
Requested amount	\$98,325
Requesting funding for	The funding application is to support the next stage (2) final plans for architectural form / design and forecasted business plan.
Nature of funding	Feasibility report / concept design / planning (strategic, financial or business)
Project Manager	Rau Hoskins – Design Tribe

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	N/A
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Yes the Kaipatiki Local Board supported the cost of the Stage One - feasibility report and the funding from this fund will support the next stages as required.
Local Board and community support	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes it does as the Kaipatiki Local Board funded the feasibility report. We attach our feasibility report as evidence of community and mana whenua consultation.
Sustainable, accessible, adaptable, future-proofed	
This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities
Demonstrate how the facility will meet the present and future needs of users	
We will enhance the rich Maori history of the whenua and the Marae for all local people, residents in the community and their future whanau.	
Insurance	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	N/A

	Kaipatiki Local Board for first stage of feasibility report	Approved \$42,000

Ngati Manuhiri Settlement Trust Trading Account

Marae	Te whare o Tenetahi
Physical address	Hauturu-o-Toi (Little Barrier Island) Little Barrier Island Hauraki Gulf Auckland 0947

Requested amount	\$150,000.00
Requesting funding for	Hauturu-o-Toi is an inner island located off the Mahurangi coast and was designated as a nature reserve. In 2011 the Ngati Manuhiri Settlement Trust settled their treaty settlement with the Crown and 1.2HA on Hauturu was gifted back to Ngati Manuhiri for the purposes of a marae. We are seeking funding to carry out the following activities; <ol style="list-style-type: none"> 1) Conduct a feasibility study that understands the unique and special factors of developing and building NZ first marae on a nature reserve. 2) Develop concept design plans for an eco-cultural environmental marae that enhances the natural environment and upholds the cultural heritage of Hauturu-o-Toi 3) Conduct hapu and community consultations on this iconic project 4) Appoint a project manager to oversee and deliver the operational plans and activities ensuring the project meets all milestones and deliverables 5) Identify the key requirements required for stage 2 of the Marae development which will include infrastructure and capital works.
Nature of funding	Feasibility report / concept design / planning (strategic, financial or business)
Project Manager	Georgina Parata

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	N/A
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Investment from Auckland council will enable Ngati Manuhiri to identify within the feasibility study the challenges and opportunities to establish a marae on Hauturu. It is envisaged that from the study Ngati Manuhiri will then begin consultations on designs and concepts that complement the natural environments and unique habitats of the island. This is an iconic and unique project for New Zealand as there is no other marae on an island that is a full nature reserve, the investment from council will enable Ngati Manuhiri to apply to other funders for stage 2 which will involve capital works and infrastructure.
Local Board and community support	
Does this project have support from your local board and / or local community and /or mana	In 2011 the Crown and Ngati Manuhiri settled treaty grievances and included in the settlement was the cultural redress on Hauturu to build a marae. Ngati Manuhiri gifted to all New Zealanders Little Barrier Island and as such we would state that the Crown and all New Zealanders

whenua?	<p>support the aspiration and goals of Ngati Manuhiri to build a marae on Hauturu-o-Toi.</p> <p>This kaupapa is supported by the Ngati Rehua - Ngatiwai ki Aotea Trust who are also direct descendants of Hauturu and whanaunga to Ngati Manuhiri.</p>
Sustainable, accessible, adaptable, future-proofed	
This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials
Demonstrate how the facility will meet the present and future needs of users	
Hauturu-o-Toi is a nature reserve in the Hauraki Gulf and it is envisaged that the marae will support the spiritual and cultural needs of Ngati Manuhiri and the descendants. The island is a sacred taonga to Ngati Manuhiri and the facility is an embodiment of those tupuna who lived on Hauturu and who upheld our mana.	
Insurance	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	Yes we have relevant policies available.

Motairehe Marae Trust

Marae	Motairehe Marae
Physical address	10 Motairehe Road Great Barrier Island PO Box 45 Port Fitzroy Wharf Great Barrier Island Great barrier Island Auckland 0963

Requested amount	\$94,653
Requesting funding for	Purchase and installation of washing machines and dryers, remedial work on the chillers, restoration of bullock track and installation of platform, section clearing removal of pines and planting of native plants, rat trapping.
Nature of funding	Capital infrastructure (includes purchase of asset & installation / build), Maintenance (includes materials and labour)
Project Manager	Loma Cleave

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	N/A
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Yes it will, we have lots of volunteer assistance and I believe that the money earned from the kowhai room and the washing machines, will be reinvested back into the other projects.
Local Board and community support	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes the local board is looking to support the growth of the economic development of Marae so that we will become financially independent. The local community and whanau will be able to be offered employment and see their whenua rejuvenated to the pristine state it once was.
Sustainable, accessible, adaptable, future-proofed	
This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities
Demonstrate how the facility will meet the present and future needs of users	
The Marae and its current visions for now and the future will ensure that the needs of our people will be looked after. The dark sky's project will create income which in turn will create employment and sustainability.	
Insurance	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	Yes we do, will send details through

Funding history

Application ID	Project title <i>Round - Stage</i>	Decision <i>Total allocated</i>
	Auckland Council – Marae Development	Approved 2015 - \$137,000
CIF-MD17-07	Auckland Council CIF – Water tank removal and installation. Painting to marae.	Approved 2017 - \$66,934

Te Aroha Pa Trustees

Marae	Te Aroha Pā Marae
Physical address	2558 Kaipara Coast Highway Araparera RD4 Warkworth 0984

Requested amount	\$150,000.00
Requesting funding for	<p>Concept Design / planning fees for whareiti, memorial & wharekai, furniture and fittings for wharekai and whareiti.</p> <p>In addition, if we were to successfully obtain alternative sponsorship that covers any of our planning costs indicated above, we would like to request in advance that Council allows us to re-allocate those funds towards other areas of qualification - examples include; loose furniture and fittings for the wharekai or other areas that qualify within the Wharekai and Whareiti projects outlined in quotes provided.</p>
Nature of funding	Feasibility report / concept design / planning (strategic, financial or business), Capital infrastructure (includes purchase of asset & installation / build)
Project Manager	Design Tribe Architects - refer to quotes provided for profile of previous projects as CV.

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	N/A
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	The completion cost of the new wharekai (kitchen/dining), whareiti (ablutions) and memorial is quoted at \$2,141,500.00 excl GST. While this total exceeds the limit of Council funds the contribution will enable us to proceed onto phase one AND anticipate phase two as detailed in Feasibility Report attached. Funding sources to date have only been Council however as per letter attached further monies are being sought by the marae from agencies such as Foundation North, DIA, Transpower and other marae funding initiatives as their funding rounds rollover. Our outlook on financial investment is a collaborative approach through-out our entire journey until completed. Council's contribution towards our whareiti, memorial and wharekai installation will make a critical difference as it would release limited resources that would support the completion of the project.
Local Board and community support	
Does this project have support from your local board and / or local community and /or mana whenua?	We are a Mana Whenua Marae setup entrusted to act on behalf of the beneficiaries (refer to Needs Analysis, page 5 – section 8.1 & 8.2). Please find attached the support of Rodney District Council shown in a previous MOU, and a letter of support by the Iwi - Ngāti Whātua o Kaipara.
Sustainable, accessible, adaptable, future-proofed	

This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities
--------------------	--

Demonstrate how the facility will meet the present and future needs of users

Marae are a focal point for Māori social, economic and cultural development. Enabling Māori aspirations for thriving and self-sustaining marae is a priority identified in the Auckland Plan. Directive 2.4 directs Council to support marae development to achieve social, economic and cultural development. This direction seeks to increase the number of Marae Development Projects that support Māori social and economic development to seven projects every 5 years to 2030.

A key feature of this marae is to act as a turangawaewae to retain the matauranaga, taonga and whakapapa of the whānau associated to this place. This is where tikanga, te reo, and other cultural practices are reinforced and preserved for the future generations of the marae community - an attribute that's endorsed by Auckland Plan directive 3.2 and also links back to chapter two of the Auckland Plan: Auckland Māori. The completion of the whareiti and wharekai will allow us to operate economically and efficiently when accommodating for whānau tangihana and other Whānau, Hapu and/or Iwi gatherings. Ultimately the development will provide the capacity to strengthen existing kaupapa and support future growth on a larger scale such as housing for kaumātua and delivering ECE through a fully functioning Kōhanga Reo for the Kaipara region.

Insurance

Do you have an insurance policy for the marae? If currently an empty site please state N/A	Not at this stage due either inadequate building structures and/or no buildings. We have engaged with Alan Wilcox Business Consultants to develop our Management Polices and long term strategic plan that will see us naturally explore how we support the Marae's sustainability so that these processes are in place by time we complete our ablutions building.
--	---

Funding history

Application ID	Project title <i>Round - Stage</i>	Decision <i>Total allocated</i>
	Auckland Council CIF - Feasibility Report, New Septic Tank and Financial Audit	Approved – 2016 \$150,000

Papatuanuku Kokiri Marae

Marae	Papatuanuku Kokiri Marae
Physical address	141R Robertson Road Mangere Auckland 2022

Requested amount	\$148,145
Requesting funding for	We would like to complete the maintenance and upgrade of our marae to service the expansion of community needs and services of our community. Our marae has expanded immensely from 260 people per week to 500 per week.
Nature of funding	Maintenance (includes materials and labour). Capital infrastructure (includes purchase of asset & installation / build)
Project Manager	No project manager this will be managed by the trustees.

Criteria

Compliance with building and health and safety requirements	
Will this project enable the marae to comply with Building Act and health and safety requirements?	<p>We comply with all the Building Act and Health and Safety Act by regular council provider audit checks. It is a requirement under this lease to always maintain these areas of the Marae.</p> <p>Given that the act of Manaaki (to host people) is an essential marae function it is vital that our Kitchen and dining area is equipped, sufficient Showers, toilets and sanitary systems are in place to service the needs of our community.</p>
Readiness to proceed / funded to completion	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Our feasibility document gives clarity to this question. There will always be a need to expand section by section to service the needs of our Whanau as we cut the pathway for our mokopuna. This funding project will place a focus on the maintenance and small expansion of our marae. The second stage will allow us to place our focus on the Whare Tupuna.
Local Board and community support	
Does this project have support from your local board and / or local community and /or mana whenua?	<p>The Mangere/Otahuhu Local Board recognises their commitments to the Treaty Of Waitangi and will work with Māori to ensure their values are considered in Local Board Plan objectives.</p> <p>We always seek guidance from Mana Whenua and also Southern Initiative.</p>
Sustainable, accessible, adaptable, future-proofed	
This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities
Demonstrate how the facility will meet the present and future needs of users	
The funding opportunity would allow us to expand the areas of delivery, capturing the natural light and the elements of our Atua through wind and rain. Creating more learning and administration spaces where	

whanau are able to learn and practice the importance of overall health and wellbeing, educating this generation and the next generation

The re-development will provide some new external paving to the front entrance to our Whare Wananga. This will improve site connectivity and access for kaumatua and the disabled as large areas of the site are currently natural ground .

Based on the durability of materials and foreseeable capacity needs of the marae, the development future proofs the marae for at least the new building life of another fifty years.

Existing facilities in many circumstances are overloaded, already to accommodate all community events from education, health, serving wider community needs while providing for the economic sustainability of the marae itself.

Marae are a focal point for Māori social, economic and cultural development. Enabling Māori aspirations for thriving and self-sustaining marae is a priority identified in the Auckland Plan.

Directive 2.4 directs Council to support marae development to achieve social, economic and cultural development.

A key feature of this marae is to act as a turangawaewae (ahakoa, no wai ratou, no hea ratou) to retain the matauranga, taonga and whakapapa of the whanau associated to our marae. Where tikanga, te reo, and other cultural practices are reinforced and preserved for the future generations of the marae community.

Insurance

Do you have an insurance policy for the marae? If currently an empty site please state N/A
