

DOC-5438549

14 March 2018

Izzy Fordham
Chairperson
Great Barrier Local Board

Dear Izzy

Thank you for your letter of 7 March 2018. We have provided a detailed table of consultation for the Rakitū Island Eradication Project for your information below.

The consultation has been quite focused, and our intention is to continue consulting with interested and affected parties as requested. In addition, there have been numerous requests for information under the Official Information Act and letters seeking response from the Minister of Conservation. All available information has been provided to those who have requested it.

Regarding further community consultation, in January we held an information day at our Okiwi office with the purpose to provide the local community with information about the planned rodent eradication on Rakitū. This was touted to be possibly repeated further south on the island. We are open to ideas on how further community consultation could be best achieved.

If you wish to discuss this further with the department, please contact George Taylor (Operations Manager, Great Barrier Island) on 027 553 3954 or by email gttaylor@doc.govt.nz.

Yours sincerely,

A handwritten signature in black ink, appearing to read 'Andrew Baucke'.

Andrew Baucke
Director Operations, Auckland
