

Memo

To: Ōtara-Papatoetoe Local Board
Cc: Debra Langton, PSR Portfolio Manager; Peter Caccioppoli, Senior Activation Advisor
From: Claire Beuvink, Activation Advisor – Young People, Active Recreation
Date: 27th April 2018

Subject: **Ōtara-Papatoetoe Local Board Community Response Fund Resolution OP/2018/31**

Purpose

1. To recommend a change to the resolution for the Community Response Fund for Boroughs Basketball Training and Skate Workshops for teenage girls.

Background

2. At workshops in February, staff submitted to local board members proposals for projects that could be funded from the community response fund in the current financial year

In March 2018 the Otara-Papatoetoe Local Board allocated a total of \$6600 LDI Opex for the delivery of 8 basketball training sessions and a 3x3 basketball competition at Ōtamariki Park, and a total of \$2400 LDI Opex for the delivery of 8 girls skateboard workshops (Resolution OP/2018/31).

3. Following approval of the funding by the local board, staff met with the deliverer to confirm delivery details for the basketball training sessions. It was recommended that a better outcome could be achieved by delivering less sessions (4 instead of 8), which provide a higher quality of delivery, including additional coaches and strengthened partnerships with local and regional organisations. No change is proposed for the 3x3 basketball competition. There is no change to the budget required.
4. Staff also met to finalise delivery of the girls skate activities the local board approved. It was recommended that the number of skate workshops for teenage girls be reduced from 8 to 4 - they will include having an extra instructor available, as well as adding a wellness talk for a holistic approach to physical activity. There is no change to the budget required
5. The changes to both these programmes will deliver the same benefits as previously discussed with the local board, but also enable them to be more focussed and intensive.
6. As the resolutions passed by the local board were detailed, any changes need to be approved by the local board.

Recommendations

7. Based on better information now being available, it is recommended that the local board resolution OP/2018/31 be amended to read:

g) approve an additional work programme, “Boroughs Basketball – a series of 4 & training sessions at Otamariki Park to increase fitness and develop basketball skills \$1600; and 3x3 basketball competition at Otamariki Park \$5000.”

h) approve an additional work programme, “Skate workshops for teenage girls – a series of 4 & workshops to be held in Otara and Papatoetoe to teach skating skills and encourage increased participation, \$2400.”
