## Auckland Mataatua Society Inc

<b>Marae</b>	Mataatua Marae
<b>Physical address</b>	17 Killington Cres Mangere Auckland 2022

<b>Requested amount</b>	\$101,000
<b>Requesting funding for</b>	Mataatua Marae is looking to complete the final stages of our works to our site to bring together all that has been done with the help of Auckland Council. The funding will contribute to almost of all of the final stages of the works to be completed and this is outlined in the overview plan of the scope of works. Previously uploaded to grants page was my project management outline and plan.
<b>Nature of funding</b>	Maintenance (includes materials and labour)
<b>Project Manager</b>	Bari Mio

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	Not applicable as we are only repairing existing structures and also installing vinyl to the floor. All safety requirements that must be met will be met and managed by the contracted party whom will carry out the work. a meeting to review all of this will be conducting with the project manager prior to commencement
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Yes. This will complete an entire 4 yearlong project.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, be adaptable for a wide range of activities
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Through the delivery of a functional site for hire and free use in some instances for the community to service our people and our community collectively. This will allow us moving forward to maintain the works completed and general upkeep will be a part of the society's role.	

<b>Insurance</b>	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	Yes

### Funding history

## Komiti Marae Orakei Trust

<b>Marae</b>	Orakei
<b>Physical address</b>	Kitemoana St Orakei Auckland 1071

<b>Requested amount</b>	\$150,000
<b>Requesting funding for</b>	<p>This project is a continuation of our WhareAko (House of learning) rebuild program where we had previously applied for \$250K 2 years ago and thankfully were granted \$150K. We have gone as far as we could with the \$150K and have spent \$80K of our own putea. But as yet, there is still a lot to do. Unfortunately, as the work progressed we realised a re-pipe (plumbing) and rewire (electrical) was necessary as most was out of code. We also made the house more user friendly for wheel chair access all around with bigger wrap around decks and installed a special needs toilet/ shower area. We also had a setback with the kitchen where just before installation it was stolen. We later found it hidden but it had sustained significant water damage. We have taken measures to provide better security on the marae.</p> <p>As part of our aim for a learning centre we have employed our young people to pass on the skills and are looking forward to working closely with NZMA (NZ Management Academy) whose construction, electrical, and possibly plaster paint students will enable us to finish on budget and on time. However we have a long way to go still.</p>
<b>Nature of funding</b>	Capital infrastructure (includes purchase of asset & installation / build)
<b>Project Manager</b>	Wyllis Maihi

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	As per previous application it complies with all standards and codes
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Yes it will be completed within this 2018 year
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes

**Sustainable, accessible, adaptable, future-proofed**

This project will:

Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities.

**Demonstrate how the facility will meet the present and future needs of users**

cover letter to come

**Insurance**

Do you have an insurance policy for the marae? If currently an empty site please state N/A

Yes

**Funding history**

## Makaurau Marae Maori Trust

<b>Marae</b>	Makaurau Marae
<b>Physical address</b>	8 Ruaiti Rd Mangere Auckland 2022

<b>Requested amount</b>	\$150,000
<b>Requesting funding for</b>	Installation of a fire system, emergency lighting and heat pump. Painting to decks and exterior of hall. Installation of heat pumps. Replacement of the fence. Concreting - Pavement including vehicle crossing as per letter from Auckland Transport.
<b>Nature of funding</b>	Maintenance (includes materials and labour)
<b>Project Manager</b>	Tracey Sanday

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	The collation of paperwork is near completion. Note - Council has requested as built plans for works that took place over 10 years ago. The only thing required is the Fire System and Emergency Lighting. Auckland Transport has also requested that the vehicle crossing is concreted. The replacement of the fence and the painting of Tuatahi (Hall) will reduce the asbestos components on the Marae.
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	The investment from Auckland Council will enable complete these individual and collective projects
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes we have the support of other Mana Whenua, local and wider community. Any improvement that we make to our Marae facilities benefits others as well as our own Marae whanau and beneficiaries given that 65% of our bookings are non-marae beneficiary.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	Meet future needs
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Our ability to ensure that our Marae meets building compliance provides an assurance of its future users.	
<b>Insurance</b>	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	Our Marae is insured as a collective under the Waikato Marae Tribal policy.

## Manurewa Marae Trust Board 2008 Incorporated

<b>Marae</b>	Manurewa Marae
<b>Physical address</b>	81 Finlayson Ave Clendon Park Auckland 2103

<b>Requested amount</b>	\$276,550
<b>Requesting funding for</b>	We are submitting two projects to be considered. Our preferred Project is P1 \$276,550.00, and P2 \$223,385.00 is the second option, if P1 is not considered. Please see the enclosed project plan, which outlines funding requirements, in more details. We have also attached a background document on Manurewa Marae.
<b>Nature of funding</b>	Capital infrastructure (includes purchase of asset & installation / build)
<b>Project Manager</b>	Manurewa Marae Facility Upgrade

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	Yes this building will. It will have a wheelchair access sloped deck. We also utilised the services of a Health and Safety consultant, who ensures that all our work is Health and Safety Compliant. Currently we have portabuilds that have a temporary resource consent, without wheelchair access, which is only a short-term solution. This project will support Manurewa Marae to get a permanent fit for purpose building that meets all the regulations outlined in the Building Act and will ensure that we are meeting the health and safety requirements for the staff and clients.
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	This project will be able to be completed within the one year term of the agreement.  The funding we are requesting from Auckland Council will enable our project to commence, and we will source further funding if the total application is not funded, from other sources e.g. Manurewa Local Board, Foundation North, DIA etc.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	We have support from Manurewa Local Board, Te Ora Manukau which is a collective of local providers within Auckland and numerous other providers that support us in serving our community. In 2017 we supported over 13,566 client contacts within the Whare Oranga, and this continually grows. We work with many providers and organisations to support our community in meeting their needs and aspirations. Our project will address 4 of the 6 outcome areas outlined in the Auckland Plan 2050:

	<ul style="list-style-type: none"> <li>• Maori identity and wellbeing</li> <li>• Belonging and participation</li> <li>• Environment and Cultural heritage</li> <li>• Opportunity and Prosperity</li> </ul>
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
<p>Currently we are using portabuilds that do not have wheelchair access, so replacing these with a building that has a ramp for wheelchair access will demonstrate the improvement for our users. Offering more space for our staff to work in, and additional private spaces for users to talk privately with our staff, improves our services and support privacy matters also. Within Whare Oranga we have a model that is working but sadly have not been able to promote the service, due to limited space within our buildings, therefore cannot meet the high demand and need in the community. If we have more space to work from, our clients will prosper, and we will be able to work with more clients, and employ more staff to meet the demand. Manurewa Marae is growing and has a unique holistic point of difference that centre around Marae based services. Manurewa has the highest Maori population in the world, therefore we need to ensure as a community that we have the facilities and services available for this population. All our services are open for all ethnic groups, and evidence has shown that other ethnic groups love the Maori holistic approach which we deliver at Manurewa Marae.</p>	
<b>Insurance</b>	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	<p>Yes we have numerous insurance policies that cover the building, and staff and trustees</p> <p>which include</p> <ul style="list-style-type: none"> <li>- Material Damage &amp; Business Interruption</li> <li>- Association Liability which includes Trustee and Public Liability</li> </ul>

### Funding history

Application ID	Project title <i>Round - Stage</i>	Decision <i>Total allocated</i>
CIF-MD18-05	Marae Development - Cultural Initiatives Fund 2018 Project in progress	Approved \$150,000

## Motairehe Marae

<b>Marae</b>	Whakaruruhau, Motairehe marae
<b>Physical address</b>	Motairehe Rd Great Barrier Island Auckland 0991

<b>Requested amount</b>	\$148,095
<b>Requesting funding for</b>	Wharekai 2 upgrade Virtual Reality Salaries and Training Dark skies equipment Sound installation Pathway platform, stairs, decking  All breakdowns attached with quotations
<b>Nature of funding</b>	Capital infrastructure (includes purchase of asset & installation / build), Maintenance (includes materials and labour)
<b>Project Manager</b>	Darren Cleave

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	Yes, as the construction that we are going to be doing does not require consented approval
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	The repair and maintenance of the Whare Kai 2 will be completed.  The Virtual Reality project will continue to the next phase.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes we have the support of our iwi, hapu and local board.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
Motairehe Marae is our turangawaewae where we live and practice our cultural traditions on our ancestral lands. We gather together with whanau, Hapuna and iwi to welcome and manaaki manuhiri to/ karakia/	

himene waiata, to manaaki each other, to learn, to tango, and to practise our values of Aroha, whakapono and rangimarie.

## Te Atatu Marae Coalition

<b>Marae</b>	Te Atatu Marae
<b>Physical address</b>	Orangihina Te Atatu Road Te Atatu Peninsula Auckland 0610

<b>Requested amount</b>	\$150,000
<b>Requesting funding for</b>	Funding is required to pay professional consultants and designers to develop the project to the point where clear accurate budgeting can be obtained, sustainable economic plan for the development can be established and a well considered concept design with 'up front' engineering input ensuring realistic aspirations and costs.
<b>Nature of funding</b>	Feasibility report / concept design / planning (strategic, financial or business)
<b>Project Manager</b>	Design Tribe Ltd

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	N/A
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	Yes, and yes to the next phase. (Please refer to N0 3 Project Management Area, Tasks)
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	<p>Yes, the Henderson Massey Local Board are fully supportive of working with Te Atatu Marae Coalition (as the designated group to establish the Te Atatu Marae).</p> <p>For many years now, we have had the full support and endorsement from both Te Kawerau A maki and Ngati Whatua mana whenua iwi. We also have the unwavering support from Te Whanau O Waipareira Trust over the many years.</p> <p>Most recently, one member from each of these iwi groups have become trustees on Te Atatu Marae Coalition Trust Board.</p> <p>There is a huge contingent of support from within the local community for the marae in Te Atatu not only today, but for the past 50 years and more. There is evidence of a large support network from all the neighbouring suburbs communities in anticipation as stakeholders in this marae.</p>

**Sustainable, accessible, adaptable, future-proofed**

This project will:

Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities

**Demonstrate how the facility will meet the present and future needs of users**

(Also please refer to the letter of support from Maurits Kelderman - I believe that pretty much sums it all up. Maurits is a very well thought of and much respected supporter of marae).

As number one priority, Tangihanga will always take precedence on the marae.

Te Atatu Marae has been described to be known as: 'The Jewel to the West' and 'The Gateway to the West'.

Can certainly be a place for Wellbeing, Holistic Health, Social Services (addressing Homelessness) and all other social matters, Turangawaewae ( a place to belong, of being able to stand).

Youth Services (in all that entails to promote wellbeing, praising, encouragement into education and jobs, Education facilities, Waka Ama, Kapahaka and as an Arts & Culture Centre for all (weaving, carving, making of tuku tuku & piu piu. Playing stick games and other Maori games, and learning to play Maori musical instruments).

A place of pride, coming together and meeting for Kuia and Kaumatua.

Also 'Marae Noho' - where anyone can choose to be part of (if they so wish) to see what it's like 'to stay on a marae!' Good participation and learning.

There is a vast range of things of interest to learn. Not only for children and youth, but for all the community. Everyone is welcome to join in.

**Insurance**

Do you have an insurance policy for the marae? If currently an empty site please state N/A

N/A

<b>Application ID</b>	<b>Project title</b> <i>Round - Stage</i>	<b>Decision</b> <i>Total allocated</i>
	Auckland Mayoral Fund 2016	Approved \$1600.00

## Te Kia Ora Marae

<b>Marae</b>	Te Kia Ora Marae
<b>Physical address</b>	2263 Kaipara Coast Hwy Makarau Auckland 0984

k

<b>Requested amount</b>	\$237,182.56
<b>Requesting funding for</b>	Funding required for the building and maintenance of the wharenuui, ablution block and wharekai. The Trade Summary itemises the description of the work to be done and also notes the work that needs to be completed before our marae is complete. Note that a full kitchen install is also required to complete the whole building. We have not been able to get another quote done. We have made several attempts to get other builders in to do this work but we have been unsuccessful. We did manage to get a builder Ray Jtischik to do an audit on our building and he and Henry have both identified the same issues. He did not provide a quote and decided he did not want to assist any further with the build. Attached is also a summary of the work to be remedied as per Building Inspector's report and photos.
<b>Nature of funding</b>	Maintenance (includes materials and labour)
<b>Project Manager</b>	Henry Backhouse-Smith

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	Yes it will. This building project started in 2006. Since then there have been changes within the Building Act and Health and Safety requirements. In 2017 our builder did a full audit of our building and will rectify areas that don't comply with Health and Safety and Building Code of today. The marae are aware that we can build to the code that was consented too however because of the time that has gone by we would like to bring things up to date and work from the current Building and Health and Safety Legislation. Our builder is familiar with the Building Act and Health and Safety Requirements of today.
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	If we are successful in getting this funding it will push us closer to completing this phase of our building project. We will be looking for further funding to install a commercial kitchen (\$150,000 quote approx.), complete our fire sprinkler system which requires a water tank and diesel generator and shed (\$200,000 approx.), complete plumbing from ablution block and kitchen area (awaiting a quote), and rectify the flat roof over the hallway (waiting for quote) which in time will potentially leak if not maintained. Our builder state with the quote he has provided that is about 3 months' work and if successful he will get it completed asap - by September 2018. The marae has already and will continue to use our Treaty settlement funds given to our marae to try and complete this

	<p>phase of the build. See bank account.</p> <p>At the moment we are also working with the council with regards to varying our Resource Consent to complete work on the land such as drainage, storm water, the carpark, a service lane, landscaping, fencing and lifting the effluent disposal field.</p>
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Te Kia Ora Marae has support from the trustees, Ngā Maunga Whakahii who is the umbrella over all 5 marae in the South Kaipara, Te Runanga o Ngāti Whatua who have assisted with funding in the past, local whanau who live around the marae and the immediate community within Kakanui. We are muriwhenua of this rohe.
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	meet future needs, promote access for the disabled, kaumātua, and tamariki, be adaptable for a wide range of activities
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
<p>The marae will be used for tangi, weddings, wananga and hui for the local Maori people in Kakanui. At this stage we have those gatherings in the old school across the road which is not adequate as there is no proper kitchen facility, running water or toilets. For our people it will be a big deal to get the marae finished and a lot more comfortable. The marae will also be used by people in the community including local schools, large groups looking for a venue, potentially a market on the weekend. We want this building to be utilised in times of disaster as a safe place for the community to meet and will work with Civil Defence in the future. The trustees are currently looking at ways the marae can earn an income so we can become self-sustaining and this will look at different people in the community using the marae for a variety of things - community meetings, conventions etc. SH16 has become very busy and we are currently looking at utilising the commercial kitchen by running a cafe to bring people in and also be a rest place when people are travelling long distances up north or south. The marae will meet our future needs as a people and bring families back to the area hopefully as we will try to offer employment opportunities. It will be a place where our kaumātua can meet and in time we will add a kohanga reo for tamariki.</p>	
<b>Insurance</b>	
Do you have an insurance policy for the marae? If currently an empty site please state N/A	<p>No not at this stage.</p> <p>Ngā Maunga Whakahii are currently looking into insurance for all 5 marae in the Kaipara under their umbrella. This is still been worked on. We expect that Ngā Maunga Whakahii will also pick up the costs of insuring the marae since we don't have any income at the moment.</p>

### Funding history

## Te Motu a Hiaroa Charitable Trust

<b>Marae</b>	Te Motu a Hiaroa Marae
<b>Physical address</b>	600 Island Rd Mangere Auckland 2022

<b>Requested amount</b>	\$150,000
<b>Requesting funding for</b>	The funding request in respect of a proposed Mana Whenua marae at Puketutu Island comprising of stage 1 Concept and Design which includes - Concept Plan, Bulk and Mass Study and Feasibility Assessment, Stage 2 Design to Resource Consent and Stage 3 Detailed Design to Building Consent. Please refer to the attached quotes for a detailed breakdown.
<b>Nature of funding</b>	Feasibility report / concept design / planning (strategic, financial or business)
<b>Project Manager</b>	Jamie Forsman

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	N/A
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	If successful the funding would be spent within the current financial year. Potential suppliers have been identified and there are no other dependencies that would hinder the commencement of the concept, design and detailed design phase of the project. Investment from Auckland Council will enable the project to continue to the next phase - tender and construction.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Te Motu a Hiaroa Trust are a Mana Whenua entity and the project forms part of the overall vision for Puketutu Island which has been developed in partnership with key stakeholders including Auckland Council. Our vision for Te Motu a Hiaroa is to protect and enhance this treasure on behalf of mana whenua and the people of Auckland as a special place of cultural significance. The project would establish a vibrant cultural hub that would be accessible by the wider community and visitors to the area. The marae would celebrate and share the areas rich cultural history and oral traditions and provide a southern gateway to the wider Auckland region.
<b>Sustainable, accessible, adaptable, future-proofed</b>	

This project will:	Meet future needs, promote access for the disabled, kaumātua, and tamariki, incorporate energy / resource efficient design features and materials, be adaptable for a wide range of activities
--------------------	--

**Demonstrate how the facility will meet the present and future needs of users**

The marae will be designed to be inclusive and accessible to all. This design will account for standard 4121:2001, Design for Access and Mobility. The marae will be a multi-use complex with a principle use as a cultural facility that reflects the rich cultural history and oral traditions pertaining to the Island and wider cultural landscape. The marae will re-connect whaanau to the Island in addition to providing opportunities for visitors and visitor accommodation. The marae will have a sustainable cost- effective design that uses space in a creative and flexible manner. This includes the utilisation of retractable shades, covers and use of outdoor space to increase usable floor area and space during major hui and events. The utilisation of sustainable design features (i.e. solar panels, double glazing) will minimise future energy costs and support the attainment of a financial sustainable /cost neutral operating model.

**Insurance**

Do you have an insurance policy for the marae? If currently an empty site please state N/A	NA

## Te Tahawai Marae Komiti Inc.

<b>Marae</b>	Te Tahawai Marae
<b>Physical address</b>	32 Edgewater Dr Pakuranga Auckland 2010

<b>Requested amount</b>	\$14,742.54
<b>Requesting funding for</b>	The funding would go towards replacing the existing grease trap (fat trap) at he the Marae with a larger 3,000 litre chamber as the existing chamber is too small to function properly due to the volume going through the trap, causing it not to separate properly
<b>Nature of funding</b>	Maintenance (includes materials and labour)
<b>Project Manager</b>	Kevin Hunter

### Criteria

<b>Compliance with building and health and safety requirements</b>	
Will this project enable the marae to comply with Building Act and health and safety requirements?	N/A
<b>Readiness to proceed / funded to completion</b>	
Will investment from Auckland Council enable the project to continue to the next phase or complete the project?	If we are granted the funding, we would engage Allfo Plymbing and Drainage Ltd to do the job as soon as they can. Hopefully within 2 months.
<b>Local Board and community support</b>	
Does this project have support from your local board and / or local community and /or mana whenua?	Yes - the Local Board have given us their full support in applying for this funding
<b>Sustainable, accessible, adaptable, future-proofed</b>	
This project will:	Meet future needs
<b>Demonstrate how the facility will meet the present and future needs of users</b>	
<p>Te Tahawai Marae is the only marae in East Auckland. It delivers education programmes to many of the local schools and other education facilities within the Auckland region. The marae is also used for Tangi, weddings and is available for many groups for noho. This means the facilities need to be upgraded. This application is to cover the cost for the most urgent item on the list. In the future we hope to apply for funding to upgrade our toilets and showers plus install a disability toilet. We have only just been made aware that as a community marae we are able to apply for funding. We are in the process of formalising out strategic plan which will lay out our commitment to the Maori in the area and further afield. Our marae provides a place of "Being" and "Learning" all forms of Maori culture, customs and tikanga.</p>	

**Insurance**

Do you have an insurance policy for the marae? If currently an empty site please state N/A

As the building is on the college grounds, the college holds the insurance however, Te Tahawai Marae Komiti Inc. holds the insurance on the contents of the Marae
