

## Attachment A

Sites to be recommended to the Regulatory Committee to be prohibited					
Area and Address	Preliminary assessment	Evidence base for preliminary assessment	Additional evidence provided by local board	Staff final recommendation	Reason for recommendation
<b>Mulberry Grove Reserve &amp; School</b> 271 Shoal Bay Road	<b>Prohibited</b> (to protect access)	Limited parking available for community users as well as boat ramp users needing to store their trailers.	Public toilet is long drop with collection chamber. No rubbish bins. Limited staff capacity to respond to any health & safety or environmental issues and inconsistency of mobile reception increases risks. Total fire ban in summer and restricted (permit only) the remainder of the year. Single dump station in centre of island with limited capacity.  One members preference was for the site to be restricted with maximum stay of 48 hours.	<b>Prohibited</b> (to protect access, health & safety, area)	Considerable environmental and health and safety concerns due to the lack of suitable infrastructure. Higher risks due to limited staff available to respond. Sufficient evidence for prohibition to protect health and safety and the area.
<b>Okiwi Airfield</b> 1370 Aotea Road	<b>Prohibited</b> (to protect access)	Limited parking available for airport users and staff	Public toilet is long drop with collection chamber. No rubbish bins. Limited staff capacity to respond to any health & safety or environmental issues and inconsistency of mobile reception increases risks. Total fire ban in summer and restricted (permit only) the remainder of the year. Single dump station in centre of island with limited capacity. Issues in the past in the North of the island with campers emptying tanks into long drop toilets or elsewhere.  One members preference was for the site to be restricted with maximum stay of 48 hours.	<b>Prohibited</b> (to protect access, health & safety, area)	Considerable environmental and health and safety concerns due to the lack of suitable infrastructure. Higher risks due to limited staff available to respond. Sufficient evidence for prohibition to protect health and safety and the area.

### Sites to be recommended to the Regulatory Committee to be prohibited

Area and Address	Preliminary assessment	Evidence base for preliminary assessment	Additional evidence provided by local board	Staff final recommendation	Reason for recommendation
