

MICHAEL KING WRITERS' STUDIO TRUST

Legal status:	Incorporated Society	Activity focus:	Arts and culture
Conflicts of interest:	None identified		

Project: Laptop for administrator of Michael King Writers Centre

Location:	Signalman's House, Mt Takarunga Devonport		
Summary:	Replacing a laptop that has become faulty. Quotes for repair have been deemed not financially viable.		
Dates:	20/11/2018 - 20/11/2018	Rain dates:	-
People delivering:	1	People attending:	NA
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

Laptop for administrator - essential piece of equipment to ensure the centre runs efficiently.
purchase of the laptop

Alignment with local board priorities:

communities are empowered to deliver placemaking projects including arts, culture and events

by supporting the writing fraternity administratively

Collaborating organisation/individual	Role
None	

Demographics

Maori outcomes: *Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)*
Although this is an administrative application, we have several Maori writers in residence this year and next.

Target ethnic groups: All/everyone

Promoting Smoke Free: NA

Zero waste minimisation NA

Conflicts of interest:	Auckland Council has been a client of Act One Productions for events.		

Project: A Very Merry Kiwimas

Location:	The Pumphouse Theatre, Takapuna		
Summary:	A Christmas show with a difference. A Very Merry Kiwimas tells the story of family and whanau with elements of Te Reo Maori and New Zealand culture to show how we celebrate Christmas in New Zealand is different from the traditions we have come to know from stories of snowy winters. This children's show takes a fun look at ourselves as an integrated community- a melting pot of cultures where everyone is accepted and celebrated.		
Dates:	17/12/2018 - 22/12/2018	Rain dates:	-
People delivering:	6	People attending:	Up to 1,000
% of participants from Local Board		80%	

Community benefits

Identified community outcomes:

A message to children of acceptance and inclusion of all cultures, not just New Zealand's own culture.

A fun and thought-provoking Christmas celebration.

Bringing a community together at Christmastime.

A show for families to enjoy together.

Email response from mailout converting to ticket sales; positive audience engagement; positive conversation between children in the audience and the actors during a meet and greet after the show.

Alignment with local board priorities:

communities are empowered to deliver placemaking projects including arts, culture and events

We wish to produce a Christmas show that truly reflects the Kiwi Christmas by using elements of Te Reo Maori and New Zealand culture to tell the story of family and togetherness at this special time of year and throughout our lives. We would like to perform this show at The Pumphouse Theatre in Takapuna in the week before Christmas and invite local schools, ECE groups and families to enjoy the Kiwi festivities with us.

Collaborating organisation/individual	Role
VS Dance	dance troupe to perform in the show
The Pumphouse Theatre	venue and ticket sales

Demographics

- Maori outcomes:** *Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)*
 A Maori focus as well as a New Zealand focus is the goal of this production. Te Reo Maori will be used in the script with definitions explained in English. Tikanga will be used upon consultation with a Maori content adviser.
- Target ethnic groups:** All/everyone
- Promoting Smoke Free:** We will promote a message of overall health and wellbeing rather than a specific message of "smoke-free" as our target audience is aged 4 - 7 years.
- Zero waste minimisation** No food to be eaten or taken into the theatre; if we use programmes we will have a collection box at the end for anyone who wishes to dispose of their programme and we will reuse and/or recycle the paper

Legal status:	School	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Enterprise

Location:	WVSS Transition Centre 1/29 Northcroft Street Takapuna and the local area within walking distance		
Summary:	Our students will be working in local resident's homes and gardens doing simple tasks with the support and guidance of our Transition staff. We have developed Guidelines for our Clients and for our Student Volunteers to ensure there are clear expectations and that our students are protected, and our clients are treated fairly.		
Dates:	01/12/2018 - 18/12/2019	Rain dates:	-
People delivering:	34	People attending:	40
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

Our Enterprise Project aims to benefit our students and local residents. Our students gain valuable real-life work experience and are able practice their communication and social skills as they transition from school e.g. completing work records which helps them develop their CV. Our clients benefit from having regular help in their home and garden, during school term times, whatever the weather. Our presence in the community doing valuable work for some of our more vulnerable residents who may be socially isolated, raises community awareness of the skills and abilities of our students and hopefully will change attitudes and further promote our Enterprise Project.

Our students progress will be measured in terms of them achieving individual goals related to key areas of communication and work skills. Our students will be able to confidently and safely undertake and complete tasks. Our clients will be happy with the work completed. We will promote our Enterprise Project through being visible in our community and in the local media e.g. Channel Magazine, North Shore Times, which will lead to greater interest in our Student Volunteers and hopefully more opportunities.

Alignment with local board priorities:

our communities celebrate diversity and feel a sense of belonging

We are based in the heart of Takapuna and our students access many community facilities e.g. gym, library, swimming pool. As part of our Enterprise Unit we offer the following services to local residents; gardening, car cleaning, household jobs e.g. window cleaning. In return our student volunteers benefit from getting real world work experience and the opportunity to practice interpersonal skills and transfer work skills learnt at Long Bay and Wenderholm Regional Parks. We are hoping to promote the work we do by being more visible in our local community.

Takapuna Playcentre

Legal status:	Incorporated Society	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Takapuna Playcentre's trip to Camp Bentzon 2019

Location:	Camp Bentzon, North Cove, Kawau Island 9810		
Summary:	Takapuna Playcentre plans to attend Camp Bentzon on Kawau Island from 26-28 April 2019. This is an amazing opportunity for families of the local community to come together and experience New Zealand's rich outdoors. We seek funding to supplement the rising costs and make it possible and affordable for all our families to attend. Camp Bentzon offers suitable accommodation (for babies through to adults) and a myriad of outdoor pursuits including (but not limited to) hiking, swimming, fishing, sailing, kayaking as well as life skills including meal preparation and numerous team building and bonding experiences.		
Dates:	26/04/2019 - 28/04/2019	Rain dates:	-
People delivering:	About 15	People attending:	50
% of participants from Local Board		80%	

Community benefits

Identified community outcomes:

We expect our community to be strengthened by enhanced and new bonds and friendships developed over the weekend camp, laying the foundation for deepened relationships for the rest of the year. The experience of going away to camp and working, playing and learning together will enhance the strong community the volunteer members have built at Takapuna Playcentre.

We expect attachment relationships with parents and caregivers to be strengthened, as they work, play and learn in a new and interesting environment.

We expect children to build on their confidence and sense of belonging through learning opportunities such as paddling a kayak (water safety), learning how to sail, preparing food for and getting along with a large group of people, fire safety, and building huts in the bush.

We hope to see consistent and improved membership levels. We hope to see consistent and improved self-assessment of our centre as a whole through our regular 'centre health checks'. We will document the children's ongoing learning and development through learning stories and narratives for their individual portfolios.

Alignment with local board priorities:

our communities celebrate diversity and feel a sense of belonging

Takapuna Playcentre is a not-for-profit early childhood education organisation, run by voluntary members of the community. Working together, our members are guided by the New Zealand Early Childhood Curriculum, Te Whāriki, which helps us to create a learning environment that embraces the diversity of New Zealand children. Being part of the Playcentre community provides a real sense

of belonging for our voluntary members, their children who attend Playcentre, and their wider whanau. Our recent ERO review states that children at Takapuna Playcentre "have a strong sense of belonging and ownership in the centre." Most of our members reside within Takapuna or within close proximity to Devonport-Takapuna. Our annual trip to Camp Bentzon, Kawau Island, is an extension of our centre, and brings the Takapuna Playcentre community together (both children and adults), and promotes a sense of belonging by offering an opportunity to learn life skills together, providing rich learning experiences in a 'back to basics' New Zealand tradition. By supporting our camp, you would be enriching our children and providing families with a wonderful opportunity to attend, as your funding would supplement the camp costs and make Camp Bentzon affordable for families.

Collaborating organisation/individual	Role
None	

Demographics

- Maori outcomes:** *Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)*
 Playcentre is committed to tikanga, mātauranga and te reo. We follow the Early childhood curriculum. We use te reo Maori at Playcentre every day and this will also be the case while on the trip. As an organisation we actively include Maori language and practises within the children's learning experience.
- Target ethnic groups:** All/everyone
- Promoting Smoke Free:** Takapuna Playcentre is strictly smoke free.
- Zero waste minimisation** Takapuna Playcentre has a waste minimisation policy - we encourage no gladwrap or disposable packaging in children's lunchboxes. We would extend this to our Camp Bentzon trip.

Project: Welcome to Sunnynook information pack

Location:	Sunnynook		
Summary:	<p>To produce an information pack for new migrants to spread awareness of local services to these residents. The welcome pack would include:</p> <ol style="list-style-type: none"> 1. The Welcome to Sunnynook Cover with pocket 2. A laminated document in Mandarin giving the names and phone numbers of key services. 3. A laminated document in English giving the names and phone numbers of key services in the area. 4. A map of Sunnynook streets, walkways and parks (The Sunnynook area 'Travel Smarter Guide and Map' in English). 5. A copy of the Sunnynook Community Centre Newsletter in English. <p>The packs will be distributed via local Chinese groups. There is scope to develop this project further going forward to include other language speakers.</p>		
Dates:	01/02/2019 - 30/06/2019	Rain dates:	-
People delivering:	10	People attending:	1000
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

With this project we hope to achieve the following outcomes

1. Spread awareness of local service to Chinese and Korean residents.
2. Increase the number of people using the parks. By being aware of these parks people are more likely to use them.
3. Increase the use of public transport. By being informed of how quick public transport is they are more likely to use it.
4. Decrease vehicle traffic. If these residents discover the how close some parks are they will not need to travel by car to parks or recreation further away. Also, if they use public transport more traffic will decrease.
5. Increase the amount of business in the area. If they are aware these services exist, they are more likely to use them bring extra business to the area.

The packs will be made available through the Sunnynook Community Centre; local real estate companies and delivered by the Sunnynook Community Association and two local Chinese Associations.

The success of this project will be evaluated in two ways.

1. The first is a survey. In the meeting one week after initial distribution, all recipients of the package will be asked if they found the package useful. The survey will show what percentage of the group found it useful.
2. The second is counting the number of packages distributed outside events or meetings. The number of packages given out at the desk will be counted and recorded.

Alignment with local board priorities:

our communities celebrate diversity and feel a sense of belonging

The community of Sunnynook is a multicultural and multi-ethnic with over half the population being born overseas and the majority of born in Asia. The growth of migrants in the community can have positive cultural, economic and social effects and these benefits can be augmented through having a welcoming community. In Sunnynook, the most spoken languages after English are Mandarin and Korean. Many migrants in particular new Chinese and Korean residents are not aware of the community facilities and services available in the area. The Sunnynook Community Association with the support of Takapuna North Community Trust, proposes to produce an information package. It will inform them of these services and how to reach them. The main benefits include social cohesion, improving quality of life, increased use of public transport, reduced traffic, and boost for local business.

People delivering:	10	People attending:	75
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

This is a community project lead by this successful local women's group and supported with event management and logistics by Takapuna North Community Trust as part of our work with older adults in the community. The event brings together older women from diverse backgrounds in the community to connect and encourages their participation in a variety activity, so that they continue to grow and thrive physically, mentally and emotionally. This is an annual event for the group which has proved very successful in previous years. The Festival always contains elements of learning as well as opportunities to exercise, laugh and enjoy each other's company. It has been the start of many friendships and connections as well as allowing the network group to gain new members and to share ideas for future gatherings and activities.

Photographs, stories and attendee numbers. We also ask participants to complete an evaluation form at the end of the event.

Alignment with local board priorities:

communities are empowered to deliver placemaking projects including arts, culture and events

The Women's Festival is a variety of activities over the course of a day for a diverse range of local woman to enjoy friendships, connection, art and culture and physical activity led by the OWN organisation. The event supports older women in the community to connect and encourages their participation in a variety activity, so that they continue to grow and thrive physically, mentally and emotionally.

Collaborating organisation/individual	Role
Our Women's' Network	Leading the event

Demographics

- Maori outcomes:** *Māori involvement in the design/concept*
OWN is an inclusive organisation and celebrates the diversity of its members. The event always begins with a karakia, invites Maori representatives to join in the fun, traditionally bless the food before eating and ensure Maori culture is recognised (often through the activities at the event). Last year's event included a workshop on Maori Herbs and Medicines.
- Target ethnic groups:** All/everyone
- Promoting Smoke Free:** The venue is smoke free.
- Zero waste minimisation** Yes. We will provide recycling opportunities and will encourage a waste free event.

Harbour Sport Trust

Legal status:	Charitable Trust	Activity focus:	Events
Conflicts of interest:	None identified		

Project: Shore to Shore 5km Fun Run/Walk

Location:	Milford Reserve		
Summary:	Shore to Shore is about encouraging school-aged children and their families and communities to get out and get active together while having fun. It is the North Shore's largest 5km fun run/walk that spans from Takapuna Grammar to Milford Reserve and is open to anyone wanting to participate. The event also gives back to local schools, as part of each registration fee is donated back to the schools in the form of Sports Distributor vouchers to provide much-needed funding to school sports departments which encourage the continued development of sport & rec programs. In 2018, 4643 people took part in the event, and over \$17000 was donated back to North Harbour Schools.		
Dates:	31/03/2019 - 31/03/2019	Rain dates:	-
People delivering:	35	People attending:	6000
% of participants from Local Board		30%	

Community benefits

Identified community outcomes:

The goal of Shore to Shore is to promote a healthy active lifestyle for children and families with a strong focus on community engagement and unity amongst family and friends. The event provides an opportunity to have fun together with their schools while engaging in physical activity together without the pressure of competition. These outcome goals directly align with the vision of Harbour Sport to, "inspire, empower and strengthen the community through sport and physical activity," and Shore to Shore serves as an exceptional method

of delivery to instil these values amongst members of the community while helping to fund school sports departments across the region.

These outcomes will be measured by the number of schools engaging and the number of people participating. For 34 years the event has brought thousands of participants together from across the region which solidifies a clear need for the event, but the success of outcomes will be measured by the continued high participation numbers, and as a result, the amount of funding delivered back to local schools.

Alignment with local board priorities:

our communities celebrate diversity and feel a sense of belonging

The Shore to Shore 5k Fun Run/Walk is an event designed to encourage youth and their families, no matter their culture or origin to get out and be active. Last year, 4643 members of the community took part in the event which continues to be the largest fun run on the North Shore. Shore to Shore encourages participation, no matter their ethnicity or background to engage with their community

through this fun run while at the same time helping to give back to local school sports programmes. By doing this run you feel a sense of community through helping raise funds for the local schools.

Promoting Smoke Free: The nature of Shore to Shore is to promote a healthy active lifestyle which goes hand in hand with being smoke-free. There are a variety of opportunities through the promotional period to promote this message to thousands of school children and families across the region through social media, event collateral and on-site assembly visits. The goal of encouraging this healthy lifestyle fits incredibly well with the message of being smoke-free, and encouraging people to take part in a 5km run/walk this is smoke-free will only assist in this cause.

Zero waste minimisation Yes, throughout the day we will follow the 4 steps to creating a zero-waste event. 1. we will minimise our own waste by having biodegradable cups, informing our sponsors and on the day vendors to minimize their waste. 2. We will have bins available on the day with the correct label as to which bin to place what waste. 3. We will let people know by having designated volunteers in the bin area and we will add this message to the MC script, so they can then communicate that to the public. We can also have a social media prize give away where people have to send in their videos of themselves recycling and tag us on it so they can then receive a prize. 4. We can capture feedback by the social media campaign as well as include video footage of people recycling.

Financial information

Amount requested: **\$2,000**

Requesting grant for: Buses
Printing

If part funded, how would you make up the difference:

We will have to get rid of the bus system that helps participants travel from their car parks to the start line at the beginning of the day and return them to the parking from the finish. This would mean less interest for participants to sign up due to challenging travel logistics

and we would lose an income stream that could help provide more funding for schools to get sports gear. The Flyers would have to be funded through sponsorship or application to another charitable trust.

Cost of participation: Entry Fee - \$10 (untimed) \$15 (timed)

Project: Heritage Walks of Devonport Brochure

Location:	Devonport		
Summary:	<p>The project consists of four brochures outlining a walk around the different parts of Devonport identifying places of significance.</p> <p>The brochures are distributed free to tourists, and are centered around: Victoria Road and Town Centre, Devonport Waterfront, Our Neighbourhood, Cheltenham and Fort Takapuna.</p>		
Dates:	01/12/2018 - 31/05/2019	Rain dates:	-
People delivering:	3	People attending:	20,000 plus
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

The brochures help to educate people about the history of the Devonport area as well as promote Devonport as a destination to visit, stay and explore.

We get constant feedback from Tourist operators in the Township as well as from Business operators who provide feedback from visitors. We also keep track of the number of brochures printed and to date there has been over 120,000 printed and distributed.

Alignment with local board priorities:

communities are empowered to deliver placemaking projects including arts, culture and events

The funds are used to assist in the reproduction and distribution of 20,000 of the four 'Heritage Walks of Devonport' Brochures.

These have been in place for a number of years with an annual distribution in excess of 20,000. These are obtained at various locations in Devonport as well as the Tourism offices in Downtown Auckland.

Each brochure has a walking map which identifies homes of significance to the area where notable New Zealanders lived. Each includes a brief description of the person and the significance.

Alcohol Healthwatch Trust

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Whanau Against Alcohol Marketing – off-licence signage community audit

Location:	Off-licence premises across Devonport-Takapuna local board area. Community feedback hui proposed to be held at Takapuna War Memorial Hall, 7 The Strand, Takapuna.		
Summary:	<p>Alcohol Healthwatch staff will conduct an audit of external signage at all off-licence premises throughout the Devonport-Takapuna Local Board area, and then assess compliance with relevant regulatory frameworks, namely the Auckland Signage Bylaw 2015, Sale and Supply of Alcohol Act, and the Advertising Standards Authority Code for Advertising and Promotion of Alcohol.</p> <p>Staff will then produce a report detailing compliance and non-compliance in the Local Board area.</p> <p>Results will be fed back to Local Board members and community stakeholders, with a workshop held in the community.</p> <p>Community members will be empowered to recognise non-compliant signage (not just for off-licences) and to take appropriate actions to improve the visual amenity of their neighbourhoods.</p>		
Dates:	01/12/2018 - 30/06/2019	Rain dates:	-
People delivering:	Three. Nathan Cowie, Health Promotion Advisor at Alcohol Healthwatch will carry out the bulk of the work conducting the audit, analysis, and reporting. Dr Grant Hewison, Solicitor for Communities Against Alcohol Harm will peer-review the audit report. Dr Nicki Jackson, Executive Director of Alcohol Healthwatch will Chair the community feedback hui with assistance from Nathan Cowie.	People attending:	We would be very happy to reach an audience of 30-70 community stakeholders from across the Devonport-Takapuna Local Board Area.
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

The first outcome of this project is to establish the degree to which external signage at off-licence premises do or do not comply with relevant regulatory frameworks.

The second outcome will be to present the findings to community stakeholders, and empower those stakeholders to take action on non-compliant signage identified in the Audit.

The third outcome will be that action is taken by licence holders or relevant regulatory authorities that results in greater compliance, and thus a reduction in alcohol advertising, and corresponding improvement in visual amenity in neighbourhoods.

Fourth, community stakeholders will be empowered and equipped to identify, and take appropriate actions regarding non-compliant signage at other locations, such as on-licence and club licence premises, and other locations.

The audit will give us a good measure of non-compliance.

We will keep a record of how many community stakeholders attend the community feedback forum and offer to collaborate with people who wish to take action on non-compliant signage identified.

We will check with regulatory authorities to assess what feedback they have received and what actions have been taken regarding non-compliant signage identified.

We will follow up with interested forum attendees that express interest in taking further actions beyond the initial audit, and check whether they have undertaken further actions since the feedback hui.

Alignment with local board priorities:

communities are empowered to deliver placemaking projects including arts, culture and events

- Our communities are empowered to deliver placemaking projects - Deliver workshops and forums to provide capacity-building opportunities for groups in our area

Alcohol and drug use has a profound effect on perceptions of community safety. While it is difficult to reduce the numbers of off-licences, some communities have had some success in preventing new bottle stores from opening.

Alcohol outlets in a community give rise to harm through a variety of mechanisms or pathways. The more that alcohol is available in a community, the higher its prevalence of hazardous drinking and harm. Secondly, the clustering of outlets increases competition which can drive prices down and result in outlets staying open for longer to win the customer purchase. Thirdly, outlets can be a blight on the community landscape, in particular as a result of ubiquitous alcohol advertising. Such advertising can also normalise alcohol in a community, increasing the likelihood that a young person will start drinking, as well as drinking more heavily. Persons wishing to remain sober or who have alcohol dependencies are also negatively impacted by an abundance of visual cues in relation to alcohol in their community.

Laws and regulations in New Zealand seek to minimise the harm from alcohol outlets in a community. For example, Auckland Council has adopted its Signage Bylaw 2015 which seeks to minimise the harm from physical alcohol advertising signs. The Sale and Supply of Alcohol Act 2012 prohibits advertising that promotes excessive consumption, and this includes mechanisms such as advertising discounts of 25% or more. Finally, the Advertising Standards Authority Code for Advertising and Promotion of Alcohol addresses the content of individual advertisements, such as those that may appear on the frontage of bottle stores or on billboards in the community.

We believe that the harm from alcohol can be minimised by ensuring that alcohol advertising in a community complies with the above codes, bylaws and legislation. However, we believe that there is a low level of awareness among the community of these relevant policies and laws.

As such, this project proposes to audit the existing exterior signage at off-licence premises in the Devonport-Takapuna local board area (Healthspace.ac.nz reports there were 23 off-licences in 2016), checking each instance of exterior signage against the above regulatory frameworks, and communicating the results of the audit back to community stakeholders. Community stakeholders can then be walked through the process of recognising non-compliant signage, empowered to

contact those responsible for non-compliant signage, and if necessary making complaints to the appropriate enforcement bodies.

Reducing the amount of alcohol advertising and promotion in the community will improve the amenity and good order of the community, and may have an impact of reducing the normalisation of alcohol in the community, and give young people (in particular) less encouragement to start drinking, or to drink heavily.

Collaborating organisation/individual	Role
Communities Against Alcohol Harm / Dr Grant Hewison, Solicitor	Peer review of compliance audit

Demographics

Maori outcomes: *Māori participation - Māori priority group, target group, high representation or Māori staff delivering*

New Zealand research demonstrates that Māori children have exposures to alcohol advertising that are five times greater than European children (Chambers et al, 2018). In particular, the most common forms of alcohol advertising exposure among Māori children were alcohol sports sponsorship and off-licence shopfront advertising. Reducing the harms from off-licence advertising can therefore have positive, pro-equity outcomes.

Target ethnic groups: All/everyone

Promoting Smoke Free: Our project will not have a direct role in promoting smoke-free messages in the Local Board area. However, the outcomes of the project can contribute significantly to enabling a smoke-free Devonport-Takapuna community.

This is because alcohol use is closely associated with tobacco use disorders in New Zealand (Wilson et al, 2012). There is evidence that alcohol use impedes New Zealander's quitting and increases the risk of relapse to smoking.

As such, restrictions around alcohol advertising which lead to reduced alcohol consumption could in turn contribute to reduced tobacco smoking. These favourable outcomes could reduce inequities in life expectancy and morbidity.

Zero waste minimisation No, this project will not be including waste minimisation messages.
