Project: Pohutukawa planting at the Clendon Shopping Centre

Location:	456 Roscommon Road		
Summary:	Community getting together to carry out some tree planting.		
Dates:	17/12/2018 - 18/12/2018	Rain dates:	-
People delivering:	10	People attending:	Clendon community
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

- bring the community together
- create an initiative for the community
- build community belonging and pride
- clean the environment with more green space
- how many community members participate
- the end result of look and feel of the planted environment
- community response through social media - Clendon Park Business association & Clendon Pride Facebook pages

Alignment with local board priorities:

Manurewa's local environment and biodiversity are protected for the future

we are proposing a community event to carry out some planting of trees at the Clendon Shopping Centre. We have been considering the 2.5m growth variety of Pohutukawa trees, however, plan to further assess suitability of tree type with local NPT.

APM the centre manager (placing this application), believes that Manurewa local board outcome 4: Our environment is a source of pride and enjoyment for the community, needs to be improved and further implemented for the Clendon community. We have discussed with Manukau Beautification Charitable Trust; the possibility of this project and they have given us a positive response.

APM agrees with the Local Board, that; Clendon is largely an urban area and we need to improve our water, air and soil quality

and reduce waste and pollution. By working together we can begin to address and reverse some of these trends so that future generations inherit a cleaner, healthier environment.

APM plan on further projects for the Clendon shopping centre 2018, like; promoting recycling, promoting a smoke free environment, and creating some recreational environments (like family size seating).

We would like to utilise this grant for getting the community together in an initiative, were the community is doing some physical work looking after their environment. we think this would be a great opening for the other initiatives to come.

Humans of South Auckland

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Community engagement through pop-up sites

Location:	Community events within the Manurewa (and wider South Auckland) area		
Summary:	Equipment to support community engagement in accessing the stories which bring hope and pride to our community. A component of this is a sign written gazebo which will be utilised at local events such as community fun days where our team will engage directly with our community to seek further nominations and share our stories.		
Dates:	01/01/2019 - 31/12/2021	Rain dates:	-
People delivering:	5	People attending:	10000
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

Anyone who reads a HoSA story has the potential to be inspired. The stories are from everyday people living in South Auckland and provides an insight to their backstory... what it is that makes them who they are.

The stories are not only written to provide other South Aucklanders with hope and pride in their community, but to reach beyond the region and give those not living out south a new perspective and appreciation for the people and communities of South Auckland... communities that so often get tarnished with negative news and stereotypes.

Through our community engagement with the assistance of a sign written gazebo we will have the ability to reach more people from the community and access more stories that we may not have received otherwise.

At every event we attend we will record the number of 'Human' nominations we receive and also be able to track any increase in our following across our social media channels as a result of having a presence at each event.

Each individual who is nominated to us will be contacted and asked if they would be happy to be interviewed for a HoSA story.

Alignment with local board priorities:

People in the community play a key part in shaping Manurewa.

The vision of 'Humans of South Auckland' (HoSA) is to develop hope and pride in the South Auckland community by sharing stories of people as individuals, not stereotypes or statistics.

This vision is achieved by telling real stories of everyday South Auckland people and sharing these on the HoSA website, across social media (Facebook and Instagram) and in various pop-up displays within the community.

Maree Steunebrink (HoSA Director) was recently interviewed by the Manukau Courier and explained "We want to really push the fact that every single person has a story and that's valuable. We're not looking for what you've achieved but who you are and why and what you do in life."

Auckland NZ VIEW

Legal status:	Incorporated Society, Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Auckland NZ VIEW Local Area Support Group

Location:	Awhina House, 4 Maunsell Road, Parnell (Blind Foundation); Botanical Gardens, 102 Hill Road, The Gardens; and other venues in Auckland		
Summary:	Auckland NZ VIEW aims to foster self- and group-empowerment among women who are blind or has low vision by facilitating opportunities to connect with others sharing similar experiences. Determined and led by elected group member volunteers, activities include peer support, informational and motivational speakers, group outings (e.g. audio described art and garden tours), social games, and annual social functions. Subsidised transport is offered as many members have difficulty accessing public transport due to the nature of their disability. All members are treated with respect, encouraged to participate, and valued for their contribution.		
Dates:	14/01/2019 - 14/12/2019	Rain dates:	-
People delivering:	5	People attending:	50+
% of participants from Local Board		30%	

Community benefits

Identified community outcomes:

Enabling blind and vision impaired women to connect to an empathetic community of people sharing similar disability-related challenges;

Facilitating access to social, artistic and leisure opportunities in the wider community for women who are blind or has a vision impairment, e.g. through sighted guidance, organising audio described tours; and

Each individual feels welcomed and valued for their participation and contribution as part of the support group community.

The lack of sight, particularly if the loss occurred suddenly later in life, can lead to a feeling of helplessness and social isolation. There are numerous daily obstacles to overcome in order to perform activities that sighted peers take for granted. For example, the simple joy of visiting a sculpture tour at the Botanical Gardens can be inaccessible to a blind person without willing and appropriate support. Meeting others facing similar challenges offers project participants access to support and understanding while they learn to adjust to their new life and re-engage with the wider community.

Maintaining number of people attending each activity;

Maintaining the number and variety of meetings/activities held each year; and

Positive feedback from participants and continued member attendance.

Alignment with local board priorities:

Manurewa is a place we feel connected, safe and valued.

Auckland NZ VIEW is a local area support group for women who are blind or has low vision. We organise regular meetings and outings where members (including many who live alone, are elderly and/or have restricted mobility) can socialise and connect with the wider community in a safe, accessible and supportive environment. Through such opportunities, the support group fosters a sense of fellowship and each member is valued for their individuality and experience.

Youthline Auckland Charitable Trust

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Youthline Helpline Volunteer Manager Costs

Location:	13 Maidstone Street, Grey Lynn, Auckland		
Summary:	<p>Youthline requests funding of \$2,000 as a contribution to the annual salary of \$87,360 of our Volunteer Manager Cathy Aiavao. Cathy is the driver behind retaining, recruiting, training and supporting our volunteer family and facilitation team who staff the Youthline Helpline in Auckland and support young people in the Franklin Local Board area.</p> <p>Cathy is based in our Youthline Auckland Central Youth and Community Development Centre. She is responsible for maintaining our training programmes and volunteer pathways (across Auckland) and setting up our programme calendar for the year – ensuring that our volunteers have the most up to date and relevant training and that they are well supported for working within the youth sector.</p>		
Dates:	16/12/2018 - 30/11/2019	Rain dates:	-
People delivering:	200	People attending:	56000
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

For many of the vulnerable young people we work with the first contact point with us is through the Helpline.

We are then able to link them with the help they need. We offer support services and positive role models to encourage, motivate and inspire young people to reach their full potential and create a resilient community.

We aim to equip them with skills and insights on how to build self-esteem and improve mental-health, how to actively problem-solve, recover from setbacks and build resilience. We know that when young people feel connected to their community and valued by others they gain confidence and self-esteem. This in turn provides them with the strength to make improved life decisions, to think about the long term and reduces risk-taking behaviour.

Youthline aims to provide all young people with skills and strategies to help strengthen and improve the relationships they have with the significant adults they interact with, i.e. parents, whānau and teachers. If we can do this then the community in which they live will benefit.

Evaluation of our work is important to us so we can continue to provide up to date, effective and relevant services to youth. Youthline will show we have achieved our aim to positively impact local young people and to help them towards achieving their potential through both quantitative and evaluative methods.

Youthline has developed a comprehensive process to evaluate the effectiveness of our services. This evaluation covers client satisfaction and also measures impact outcomes. After participating in

Youthline services participants are asked to complete a survey and provide feedback. This is a highly useful tool for review, supervision and evaluation of our services.

Three changes we expect to see if the expected outcomes occur:

1. Young people will have received the individual support they require
2. Young people will have improved self-esteem, confidence and resilience
3. Young people will have a personal plan and goals going forward.

Alignment with local board priorities:

Manurewa is a place we feel connected, safe and valued.

Young people in need who contact Youthline through our Helpline often feel lonely, alone, disengaged and desperate. They often have no sense of belonging to family, school or community.

Youthline has been supporting young people in need for over 48 years. The helpline is an early intervention service operating from a strengths-based, person centred approach where young people contact us by phone, text and email.

The helpline is staffed by over 200 volunteer counsellors who receive extensive training to handle what are often complex issues. They respond to situations of low to high and imminent risk across all mediums of contact, providing a continuum of support and linking service users with other agencies in their own communities. Utilising and promoting Youthline's strengths-based, wrap around approach, Youthline staff are responsible for the quality assessment and management of clients (young people and their families), including those with high and complex needs.

The Helpline is a gateway to accessing a range of personal development opportunities, counselling, mentoring, workshops and seminars. We very much focus on their wellness and wellbeing.

We equip youth with skills and insights on how to build self-esteem and improve mental-health, how to actively problem-solve, recover from setbacks and build resilience. Counsellors link them with local support services to assist their ongoing development. Through their improved emotional and self-management skills young people are less likely to fall into helplessness, depression, addictive behaviours, dangerous relationships and unemployment.

Research shows that when young people are engaged in community activities, linked with whanau, and given the opportunity to participate feel that they are part of something and encouraged to reach their potential, that risk taking behaviour is reduced. Youthline works inclusively with youth, from those young people who are most vulnerable to youth leaders who are championing change. Our clinical support workers counsel/mentor young people identified as needing one on one support to encourage and inspire them. They aim to understand the strengths and weaknesses of each young person, then identify goals and milestones and develop a plan for successful implementation and progression. By walking beside a young person and providing positive role models Youthline aims to see every young person become connected to the community in which they live and a positive contributor to society with a strong sense of belonging and feeling connected, safe and valued.

Promoting SmokeFree: Youthline Auckland supports the Auckland Council's SmokeFree Policy and its commitment to working proactively with others towards making Auckland SmokeFree by 2025. We have a smoke free policy in place and can offer

support, advice and referrals to young people who wish to give up smoking. We ensure that the young people we work with are aware of our support for making Auckland SmokeFree and how we can help them if necessary.

Project: Hydrotherapy for people with MS living in Manurewa area

Location:	Manurewa Pool and Leisure Centre, Sykes Rd, Manurewa, Auckland 2102		
Summary:	<p>Neurological Hydrotherapy is proving extremely beneficial for people with MS and other neurological conditions, helping them manage the symptoms of their disease and keeping them active in the community.</p> <p>These classes are very popular - 207 attendees in 2017.</p> <p>People with MS find it valuable for maintaining their health and slowing the progressive nature of this disease.</p> <p>We run these classes at the Manurewa Pool on Wednesday mornings. This venue is ideal as people with MS are very sensitive to temperature when exercising, so it is important to have a pool with water and ambient temperatures that enable people with MS not to feel too hot or cold. This pool also has a wheelchair hoist.</p>		
Dates:	01/01/2019 - 31/12/2019	Rain dates:	-
People delivering:	200 - attendees, caregivers, family, physiotherapists, volunteers, pool employees	People attending:	400 including family members and caregivers
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

1. People with Multiple Sclerosis and other neurological conditions participate in exercise in a supported social environment on a regular weekly basis
 2. The opportunity for those who would otherwise be unable to exercise to receive supervised exercise and ongoing monitoring in a non-intrusive manner
 3. The physical health and emotional wellbeing of people with MS and other neurological conditions are met
1. Personalised objective outcome measures for functional improvement are taken for

each client upon starting the programme and then again every three - six months by the neurological physiotherapy team and evaluated against goals on a month by month basis. An example would be a percentage increase of pool lengths a client may be able to accomplish in 30 minutes

2. Ongoing monitoring, feedback and reporting provided by the Rope Neuro neurological physiotherapists both to the client and to MS Auckland via the local Field Worker
3. Feedback is sought from our members via regular interaction with their Field Worker and an annual client survey is conducted by our GM, Ingrid Minett

Alignment with local board priorities:

Our communities work together to create spaces and places that meet the diverse aspirations of our community, support participation in activities and make new connections

MS Auckland is providing neurological hydrotherapy classes, facilitated by fully qualified, local, neurological physiotherapists, held weekly at the Manurewa Pool and Leisure Centre.

These classes are personalised to help people with MS and other allied neurological conditions participate in local activities and maintain their health and well-being and help prevent the progressive nature of this disease.

Collaborating organisation/individual	Role
Manurewa Pool and Leisure Centre	Neurological Hydrotherapy Pool Venue
College Rifles Physio & Sports Rehab	Neurological Physiotherapist Facilitator
Volunteers from the Manurewa area	Assist pool users to get in/out of the pool or get changed

Demographics

Maori outcomes:

Target ethnic groups: All/everyone

Promoting SmokeFree: Our goal is to help people with MS and other neurological conditions to live a healthy life.
There are no smokers who participate in the project.

Zero waste minimisation We do not anticipate any waste created from the running of this project.

Auckland Seniors Support And Caring Group Incorporated

Legal status:	Incorporated Society	Activity focus:	Arts and culture
Conflicts of interest:	None identified		

Project: Chinese Dragon Boat Festival Celebration

Location:	St Luke Church, 3 Russell Road, Manurewa		
Summary:	We organise local residents (most of them are Chinese migrants) to celebrate Chinese traditional Festival-Dragon Boat Festival. According to Chinese tradition, on that festival, people get together to row the boats and eat Zhongzi, a tasty rice ball. We would like to play nice performances and have Chinese food together to enjoy our festival.		
Dates:	24/05/2019 - 24/05/2019	Rain dates:	-
People delivering:	more than 100	People attending:	about 200
% of participants from Local Board		85%	

Community benefits

Identified community outcomes:

- 1) Most of participants are local residents who are eager to have their cultural events through which they may be familiar and happier.
- 2) We play our traditional cultural performances to celebrate the Festival which can be shared by other ethnic group residents.
- 3) Zhongzi, a typical Chinese food can be shared by all of the participants.
- 1) We will organise a lot of residents most of whom are migrants. They will have a wonderful time together.
- 2) We will invite other ethnic people to join us. All of us should be enjoying the diversity cultural celebration.

Alignment with local board priorities:

Local community, arts and cultural events

We have 91 members who have activities together in the church of Manurewa. We have hired the venue in Manurewa since 17th August of 2018. We play table tennis, learn to sing the songs and play Chinese traditional Gongfu-Taichi.

On June 7th of 2019, There is a typical Chinese traditional Festival called 'Dragon Boat Festival. We plan to celebrate the Festival. We are going to play beautiful cultural performance, share Chinese traditional food-Zhongzi and welcome other ethnic group residents to join us.

What Hope Community Trust

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: What Hope Youth Camps 2018

Location:	Tauranga Bay Holiday Camp		
Summary:	The climax for our Youth program based in the Manurewa Sports Centre is the camp. We run a four night camp for the boys and a four night camp for the girls at Tauranga Bay where we do a range of activities.		
Dates:	06/01/2019 - 16/01/2019	Rain dates:	-
People delivering:	11	People attending:	20-30
% of participants from Local Board	100%		

Community benefits

Identified community outcomes:

Our strongest value is building relationships with the youth to give them a place of belonging and value. The camp is key in achieving this outcome and helps set a culture of belonging for the rest of the year. It is a time where our youth can connect with meaningful relationships, build confidence and gain life skills. We also know through surveys that this is the activity youth want most. The youth will also have the opportunity to lead and organise activities for the camp, which will grow their leadership capabilities. Visits to nearby Maori historic sites have also become a meaningful part of these camps to strengthen the cultural connection of the youth to the land and Aotearoa history.

Surveys

Alignment with local board priorities:

People in the community play a key part in shaping Manurewa.

Youth are the highest population in Manurewa. The greatest thing that can be invested into youth is time. They need people that believe in them and can support. For youth to feel safe they need relationship in a safe environment. At What Hope we focus on developing a place of belonging through building relationships. The camps we hold are probably the greatest mechanism to build relationships with the youth. It is by engaging in a camp that youth find it easier to be active and get involved in more community based activities throughout the year instead of being disengaged.

Collaborating organisation/individual	Role
Tauranga Bay Holiday Camp	The space

Demographics

Maori outcomes: *Māori participation - Māori priority group, target group, high representation or Māori staff delivering*

The youth that attend our program are 80-90% Maori. One of our key leaders is Maori and part of her role is encouraging Maori identity. The camp helps connect youth with the land. The other core values for the camp are Whanaungatanga, Manaakitanga, Kotahitanga, Rangatiratanga & Wairuatanga.

Target ethnic groups: All/everyone

Promoting SmokeFree: Our camps are SmokeFree and we cover general health during our talks which includes the above.

Zero waste minimisation Zero waste is a priority for our organisation so our message is constantly promoted through the way we seek to minimise waste by using reusables, minimising food waste and recycling/disposing correctly.

Percentage of males targeted	Percentage of females targeted	All - not targeted male/female
50%	50%	%

0-5 years	< 15 years	15-24 years	25-44 years	45-64 years	>65 years	All ages

Alcohol Healthwatch Trust

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Whanau Against Alcohol Marketing – off-licence signage community audit

Location:	Off-licence premises across Manurewa local board area.		
Summary:	<p>Alcohol Healthwatch staff will conduct an audit of external signage at all off-licence premises throughout the Manurewa Local Board area, and then assess compliance with relevant regulatory frameworks, namely the Auckland Signage Bylaw 2015, Sale and Supply of Alcohol Act, and the Advertising Standards Authority Code for Advertising and Promotion of Alcohol.</p> <p>Staff will then produce a report detailing compliance and non-compliance in the Local Board area.</p> <p>Results will be fed back to Local Board members and community stakeholders, with a workshop held in the community.</p> <p>Community members will be empowered to recognise non-compliant signage (not just for off-licences) and to take appropriate actions to improve the visual amenity of their neighbourhoods.</p>		
Dates:	16/12/2018 - 30/06/2019	Rain dates:	-
People delivering:	Three. Nathan Cowie, Health Promotion Advisor at Alcohol Healthwatch will carry out the bulk of the work conducting the audit, analysis, and reporting. Dr Grant Hewison, Solicitor for Communities Against Alcohol Harm will peer-review the audit report. Dr Nicki Jackson, Executive Director of Alcohol Healthwatch will Chair the community feedback hui with assistance from Nathan Cowie.	People attending:	We would be very happy to reach an audience of 30-70 community stakeholders from across the Manurewa Local Board Area.
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

The first outcome of this project is to establish the degree to which external signage at off-licence premises do or do not comply with relevant regulatory frameworks.

The second outcome will be to present the findings to community stakeholders, and empower those stakeholders to take action on non-compliant signage identified in the Audit.

The third outcome will be that action is taken by licence holders or relevant regulatory authorities that results in greater compliance, and thus a reduction in alcohol advertising, and corresponding improvement in visual amenity in neighbourhoods.

Fourth, community stakeholders will be empowered and equipped to identify, and take appropriate actions regarding non-compliant signage at other locations, such as on-licence and club licence premises, and other locations.

The audit will give us a good measure of non-compliance.

We will keep a record of how many community stakeholders attend the community feedback forum and offer to collaborate with people who wish to take action on non-compliant signage identified.

We will check with regulatory authorities to assess what feedback they have received and what actions have been taken regarding non-compliant signage identified.

We will follow up with interested forum attendees that express interest in taking further actions beyond the initial audit, and check whether they have undertaken further actions since the feedback hui.

Alignment with local board priorities:

Manurewa is a place we feel connected, safe and valued.

Alcohol and drug use has a profound effect on perceptions of community safety. While it is difficult to reduce the numbers of off-licences, some communities have had some success in preventing new bottle stores from opening.

Alcohol outlets in a community give rise to harm through a variety of mechanisms or pathways. The more that alcohol is available in a community, the higher its prevalence of hazardous drinking and harm. Secondly, the clustering of outlets increases competition which can drive prices down and result in outlets staying open for longer to win the customer purchase. Thirdly, outlets can be a blight on the community landscape, in particular as a result of ubiquitous alcohol advertising. Such advertising can also normalise alcohol in a community, increasing the likelihood that a young person will start drinking, as well as drinking more heavily. Persons wishing to remain sober or who have alcohol dependencies are also negatively impacted by an abundance of visual cues in relation to alcohol in their community.

Laws and regulations in New Zealand seek to minimise the harm from alcohol outlets in a community. For example, Auckland Council has adopted its Signage Bylaw 2015 which seeks to minimise the harm from physical alcohol advertising signs. The Sale and Supply of Alcohol Act 2012 prohibits advertising that promotes excessive consumption, and this includes mechanisms such as advertising discounts of 25% or more. Finally, the Advertising Standards Authority Code for Advertising and Promotion of Alcohol addresses the content of individual advertisements, such as those that may appear on the frontage of bottle stores or on billboards in the community.

We believe that the harm from alcohol can be minimised by ensuring that alcohol advertising in a community complies with the above codes, bylaws and legislation. However, we believe that there is a low level of awareness among the community of these relevant policies and laws.

As such, this project proposes to audit the existing exterior signage at off-licence premises in the Manurewa local board area (Healthspace.ac.nz reports there were 24 off-licences in 2016), checking each instance of exterior signage against the above regulatory frameworks, and communicating the results of the audit back to community stakeholders. Community stakeholders can then be walked through the process of recognising non-compliant signage, empowered to contact those responsible for non-compliant signage, and if necessary making complaints to the appropriate enforcement bodies.

Reducing the amount of alcohol advertising and promotion in the community will improve the amenity and good order of the community, and may have an impact of reducing the normalisation of alcohol in the community, and give young people (in particular) less encouragement to start drinking, or to drink heavily.

Collaborating organisation/individual	Role
Communities Against Alcohol Harm / Dr Grant Hewison, Solicitor	Peer review of compliance audit

Demographics

Maori outcomes: *Māori participation - Māori priority group, target group, high representation or Māori staff delivering*

New Zealand research demonstrates that Māori children have exposures to alcohol advertising that are five times greater than European children (Chambers et al, 2018). In particular, the most common forms of alcohol advertising exposure among Māori children were alcohol sports sponsorship and off-licence shopfront advertising. Reducing the harms from off-licence advertising can therefore have positive, pro-equity outcomes.

Target ethnic groups: All/everyone

Promoting SmokeFree: Our project will not have a direct role in promoting smoke-free messages in the Local Board area. However, the outcomes of the project can contribute significantly to enabling a smoke-free Manurewa community.

This is because alcohol use is closely associated with tobacco use disorders in New Zealand (Wilson et al, 2012). There is evidence that alcohol use impedes New Zealander's quitting and increases the risk of relapse to smoking.

As such, restrictions around alcohol advertising which lead to reduced alcohol consumption could in turn contribute to reduced tobacco smoking. These favourable outcomes could reduce inequities in life expectancy and morbidity.

Zero waste minimisation No, this project will not be including waste minimisation messages.

Project: Festive music happy hours.

Location:	11 Kern Place, Manurewa		
Summary:	This is an existing project of brass band sessions for youth in community. We are increasing our sessions for during school holiday. We also have planned happy hours special for everyone to be involve no matter how little you know about playing the instruments. We therefore need more hire instruments for potential members with great music skills.		
Dates:	21/12/2018 - 26/01/2019	Rain dates:	-
People delivering:	22 members and 10 committee members as supporters.	People attending:	300
% of participants from Local Board	26%		

Community benefits

Identified community outcomes:

We have increasing numbers of players since we started. The parents starting to support in small expenses like transporting. There has been increasing awareness of this kind of arts and music. Kids to adults can play and this band has involved in community events like 4 to 5 funerals from our community that they want the kids to play in special arrangements for their loved ones.

This project will keep the kids entertain throughout festivities holidays and keep them out of trouble as well cause our programme is schedule out almost every day.

Outcomes are measured by how well and improvements of an individuals in playing their initial instruments and their capability to swap around to other instruments. New recruitment members have more fun when they combine together with other mature players. Younger siblings of players are cue up to join when it is possible especially when instrument is available for them.

Alignment with local board priorities:

Local community, arts and cultural events

During school holidays, my brass band group want to increase our number of people participating especially those who already attend one or more of sessions but do not have an instrument. We only have a limited hired ones and some already own but from my list of potential good players, we need to help them provide the instruments. We have members now who have been awarded from their school arts achievements.

Collaborating organisation/individual	Role
Free Wesleyan Church of Tonga in Aotearoa(Manurewa)	Parents with transports, also hiring and purchase of kid's instruments.

Parents committee.	Fundraising throughout the year to maintain the hire of instruments.
--------------------	--

Demographics

Maori outcomes:

Target ethnic groups: Specific ethnic group New Zealand European, Other European, Māori, Pacific Peoples

Promoting SmokeFree: Our area of practice and rehearsal are smoke free area. Youth and kids are non-smokers members only. We are practically involved in zero waste Auckland in our particular area of residence.

Zero waste minimisation

Project: Life Education workbooks to help build a healthier Manurewa Community

Location:	in the grounds of schools across the Manurewa Local Board area including BLENNZ, Everglade School, Randwick Park School & Reremoana School		
Summary:	<p>Our lessons, taught by a fully registered & qualified teachers to children & youth aged 5-13, are integrated into the NZ's Health & PE curriculum & delivered in unique multi-media mobile classrooms in the school grounds.</p> <p>Our educators meet with the schools to discuss the main core subject the school wants covered & the lessons are planned to use our 60 'Big Questions'. Lessons are planned to suit each age group with skills & knowledge built upon every year and stage we teach them at.</p> <p>With the fantastic ethnic diversity of the students we teach in Manurewa (see attached pie chart), we celebrate & include all the different customs that our students bring with them & discuss how they all contribute positively & equally to the Manurewa community.</p>		
Dates:	02/01/2019 - 28/06/2019	Rain dates:	-
People delivering:	1	People attending:	2,090 students aged 5-13
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

The outcomes for our Manurewa students are that they'll be:

PROUD of their identity
 EMPOWERED to make healthy choices
 CONNECTED & engaged with the world
 CURIOUS & have inquiring minds
 RESPECTFUL of themselves, others & the environment

The outcomes for our Manurewa community are that they will be more involved & connected by:

- 1) participating in follow-up activities provided by the workbooks that help cement positive changes
- 2) parents/whanau sharing skills, info & support at the parent sessions e.g. meal plans, seasonal/cheaper eating, how to recycle more in the home, cyber-safety
- 3) being pro-active & increasing participation in sport, leisure & recreation activities = less time sitting down on technology & increased family time

4) all our different cultures being promoted & celebrated in the classroom which spreads to the wider community to know & believe that their skills & knowledge will create a brighter & inclusive community. These are also highlighted through our participation in local events.

1) The classroom teacher of every student we teach are invited to evaluate the lesson they have just observed across a range of subjects from the engagement of our educator with the students, our educational resources, content of the lesson, age-appropriateness of lesson etc. All results are gathered & assessed by Research NZ.

2) Being invited back to teach at the school on a regular basis

3) Feedback, retainment & building of knowledge from seeing the same students as they move through the school

Alignment with local board priorities:

People in the community play a key part in shaping Manurewa.

NZ Health Survey 2016/2017

Nearly 100,000 children aged 2-14s (12.3%) were obese. This has increased by 8.4% since 2006/2007.

Children living in the most socio-economically deprived neighbourhoods were 2.5 times as likely to be obese as children living in the least deprived neighbourhoods, after adjusting for age, sex and ethnic differences.

We have the ability to help reverse these trends in the Manurewa community by nurturing good everyday habits that grow into healthy LifeSkills that are maintained & shared with extended family for years to come and create positive cycles.

All our lessons are based on health & well-being within the programme strands:

- 1) Food & Nutrition
- 2) Human Biology
- 3) Relationships & Communities
- 4) Identity & Resilience
- 5) Substances

Collaborating organisation/individual	Role
Garden To Table 'Empower'	a joint venture between Life Education & GTT. A comprehensive & sustainable programme to help tackle child obesity through: teaching about balanced diets, meal planning & understanding their body's nutrient needs - GTT turns it into action by growing, harvesting & cooking fresh fruit & vegetables in the school's grounds.
Dove Self-esteem project	where our educators provide training to school teachers in our area re their student's healthy development & to avoid valuing themselves & others on the basis of appearance

Demographics

Maori outcomes:

Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)

As an inclusive organisation we use Te Reo words throughout our lessons in handouts, digital means and all our workbooks are available in Te Reo (see attached). With 60% of our students in Manurewa identifying as Maori, it is paramount to us that Te Reo is used in our classes as well as ensuring our

whole community has the opportunity to learn & use the language. Our teachers continually update their resources via their on-going training & personal development.

Target ethnic groups: All/everyone

Promoting SmokeFree: 'Substances' is one of the five core subjects we teach to intermediate students. We discuss & roleplay the decision-making processes they may come across & go through when seeing their friends & peers smoke or they are offered a variety of substances to smoke. We talk about the effects smoking has on your brain, body, finances & making decisions. A Pull Apart Torso - full medical school teaching standards (with 28 parts) is used to illustrate points.

Latest research is used from all health sectors in our lessons.

The largest external programme provider working in schools we are proud of the positive trend in the reduced rate of binge drinking, smoking, bullying and marijuana use amongst NZ youth.

WE WANT MANUREWA TO BE SMOKE-FREE

Zero waste minimisation Many of our lessons talk about reduce, re-use & recycle and the ways in which Manurewa individuals & the community can work together to improve the environmental health of the Manurewa Local Board community-SEE ATTACHED OF EXAMPLE LESSON PLAN

Percentage of males targeted	Percentage of females targeted	All - not targeted male/female
%	%	100%

0-5 years	< 15 years	15-24 years	25-44 years	45-64 years	>65 years	All ages
9%	91%	%	%	%	%	%

Financial information

Amount requested: \$1,999

Requesting grant for: Life Education workbooks which are an essential part of our programme in allowing our Manurewa students to share the information learnt with their parents and whanau at home. The school's teachers also use them to reiterate information topics covered thus enable it to be remembered and used throughout the year.

They are available in English, Te Reo and Braille.

For every year that we visit children in their schools, we can have a positive effect on their health choices regarding food, nutrition & exercise by showing them the short & long-term effects of making good choices.

If part funded, how would you make up the difference:

We will fundraise to ensure every student we teach in Manurewa will have a workbook to take home.

THE \$5 WE CHARGE TO TEACH THE STUDENTS DOES NOT INCLUDE THE COST OF THE WORKBOOKS THUS WE NEED TO FUNDRAISE FOR THE WORKBOOKS SEPARATELY

Cost of participation: The cost is \$17.92 per student. We charge schools a nominal fee of \$5 for primary school students age 5 - 11 (receive two lessons)/ \$7 for intermediate students age 11- 13 (receive three lessons), however if a school indicates that the visit cannot proceed due to this charge, our Board has given us a mandate to waive the fee to ensure that no child misses these important health & nutrition life lessons.

Te Timatanga i te kakano

Under the umbrella of Te Timatanga i te Kakano Trust

Legal status:	Māori Trust	Activity focus:	Arts and culture
Conflicts of interest:	None identified		

Project: Whakapapa Wananga

Location:	Te Koraha Marae, Taharoa, 3988		
Summary:	<p>To learn who we are, where we are from and where do we see ourselves in the future.</p> <p>Self-identity and a foundation for generations to come. At least 95% of the participants reside in Manurewa. Have been schooled in Manurewa and continue to bring their children up in the Manurewa Community. This however has a detrimental effect from a lack of self-identity.</p> <p>This is a great opportunity for all participants to feel a sense of belonging although they live miles away from where their grandparents, great grandparents were originally from.</p>		
Dates:	25/01/2019 - 28/01/2019	Rain dates:	-
People delivering:	5 people	People attending:	50-70
% of participants from Local Board		95%	

Community benefits

Identified community outcomes:

Participants continue to live in the Manurewa Community with a sense of pride and self-autonomy. Parents and children will continue to go to work, go to school but have a better knowledge and appreciation of where they are from. They are able to share this knowledge with others in their school or work environment with better understanding towards others and themselves.

This will be measured through wananga at night. Talking and engaging with one another on what they learnt each, day. Each person will give their own feedback through evaluation sheets given out at the hui.

Alignment with local board priorities:

We protect our future, nurture our present and honour our past

Whakapapa- The participants will learn the importance of whanau , hapu, iwi, Marae.

Collaborating organisation/individual	Role
The Haukainga.	teach us knowledge of the area

Demographics

- Maori outcomes:** *Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)*
 Whakapapa - Generational links to oneself
 Whenua - Sense of belonging, walking the whenua of our ancestors, the surrounding mountains and sea.
 Hapu- Learn the core essence of who, why and how we became this hapu.
 Marae - Learn Powhiri, whaikorero, cooking, cleaning, tikanga on the Marae.
 Rangatiratanga - I know who I am and where I am from.
- Target ethnic groups:** Specific ethnic group Māori
- Promoting SmokeFree:** Smoke-free Marae. Exit the Marae grounds.
- Zero waste minimisation** tiaki i a Papatuanuku. Look after Mother earth.

Project: Fe'unu Koula Academy - Tongan Tau'olunga & Mako Classes

Location:	11 Beihlers Road, Weymouth		
Summary:	It is a 10 week sessions of teaching Tongan dances to both boys and girls as well as Tongan songs and after 10 weeks they will have a graduation ceremony where the students will be awarded a certificate of completion and then they get to perform what they've learned to an audience. From experience, students who have joined shown a huge boost in their confidence in schools, communities, churches and families.		
Dates:	17/12/2018 - 26/03/2019	Rain dates:	-
People delivering:	3	People attending:	open to the community it can go up to more than 50
% of participants from Local Board		100%	

Community benefits

Identified community outcomes:

Our local Tongans in the area will be closer and their children will gain more confidence in knowing our Tongan culture as well as become professional Tongan dancers that will help them in their studies as well.

By looking at how well they remember the dance lessons and also how they will perform on their graduation evening.

Alignment with local board priorities:

Local community, arts and cultural events

Our Tongan Dances classes has been running in other areas of Auckland and some local people from the Manurewa areas has attended but was inconsistent due to distance, so they've asked if it's possible to run our Tongan Dances classes closer to them or in Manurewa where they could attend more regularly.

Collaborating organisation/individual	Role
no	no

Demographics

Maori outcomes:

Target ethnic groups: All/everyone

Promoting SmokeFree: We will remind parents that smoking is not good and or allowed near children and we can also have some information to display on our graduation evening or maybe Smoke-free and zero waste can send us information to distribute to parents and children that will attend. We also mention our classes on radio and Facebook if they can sponsor some prizes for our graduation night we can also promote it on social media.

Zero waste minimisation Yes, we will definitely educate the young ones to be responsible with littering and also informal parents not to litter

Te Awa Ora Trust

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified Not applicable		

Project: Neighbourhood Chill

Location:	Randwick Park Community House and Te Whare Awhina Community Services Centre		
Summary:	2 activations to bring neighbours together to meet one another and discuss what they would like to see or do together that would make them feel more safer, of value and connected as neighbours. The activations will include music, kai and opportunities to contribute their ideas.		
Dates:	17/12/2018 - 08/02/2019	Rain dates:	-
People delivering:	4	People attending:	approximately 80
% of participants from Local Board	100%		

Community benefits

Identified community outcomes:

People in the local community will have a way of inputting their opinions and suggestions that will inform the types of activities that will help to build community connection and safety in their neighbourhood.

Local community who live in the same area will be coming together, people who do not know one another can connect and start to build friendships.

By the attendance of neighbours to the event- we'll get them to register their contact details,

By their participation and engagement with each other and whether they would like to continue to engage in some form or other after the event.

We will keep a register of attendance with contact details.

We will ask attendees to write down their suggestions and ideas and decide what they want to do following after the events. We will distribute these to everyone afterwards.- if they give permission to do so.

Alignment with local board priorities:

Manurewa is a place we feel connected, safe and valued.

Between December 17th, 2018 and February 8th, 2019, we will conduct a neighbourhood conversation in Wiri to find out from people when they have felt connected, safe and valued in their own neighbourhood. We will build upon their positive experiences and suggestions and use this information to help shape and deliver some initiatives from March 2019. We will gather and collate a minimum of 150 completed surveys.

Collaborating organisation/individual	Role
Randwick Park Community House	Venue and promotion support
Te Whare Awhina Community Services Centre	Venue and promotion support

Demographics

Maori outcomes: *Māori led - either a Māori organisation that is applying or Māori directed (came about as a request from Māori).*

All four people delivering the project are Maori.

The General Manager of the Te Awa Ora Trust is Maori.

There are several Maori whanau who live in these areas that will be invited to attend.

Target ethnic groups: All/everyone

Promoting SmokeFree: We will ask people not to smoke at the event and instead they will have a designated area outside of the venue to smoke.

Zero waste minimisation yes, we will let everyone know about Talking Trash and their contact details, encouraging them to visit their Facebook page. We will also promote correct recycling of any materials we use on the day.

Te Oranga Kaumatua Kuia Disability Support Services Trust

Legal status:	Charitable Trust	Activity focus:	Community
Conflicts of interest:	None identified		

Project: Whanaungatanga Project

Location:	64 Mascot Ave, Mangere		
Summary:	Our project is culturally sensitive to the needs of Maori and other ethnic cultures, and has a holistic approach to the well-being of the elderly and their whanau by allowing them to participate in decision making of their own care plan to achieve their dreams and aspirations.		
Dates:	06/05/2019 - 10/05/2019	Rain dates:	-
People delivering:	6	People attending:	170 - 250
% of participants from Local Board	100%		

Community benefits

Identified community outcomes:

The elderly and whanau are able to access culturally sensitive services including the benefits offered by our organisation that include our Day Activity Programme and Community Support Services.

Whanau will be updated on local community events through our website calendar.

Whanau will be involved in all areas of the decision making for their care plan.

Whanau will be introduced to a free medical service including a Podiatrist, free health checks, transportation to your GP appointments and free legal advice.

Whanau will feel more confident and knowledgeable of the services within their community.

Whanau will be better educated on healthy lifestyle choices and have a more positive understanding of their environment.

By the number of referrals to the organisation.

Our organisation will follow up and monitor with the elderly and whanau, their care plans and progress.

Satisfaction surveys which includes feedback from whanau and kaumatua kuia. This is accessible from our website.

Alignment with local board priorities:

Manurewa is an age friendly and accessible environment

Our project provides whanau with the opportunity to participate in Marae based programmes that educate whanau on coping strategies and how to manage their own care plan, healthy lifestyle activities, becoming more involved accessing community services aligned to their quality of care,

knowledgeable in health education and literacy, and less visits required to their Doctor's and whanau becoming more resilient and confident to engage with implementing their own lifestyle plan.

Collaborating organisation/individual	Role

Demographics

Maori outcomes: *Māori focus - tikanga (practises), mātauranga (knowledge), reo (language)*
 We will achieve Maori outcomes by providing the Community with a culturally appropriate service which encompasses a Maori well-being framework e.g. Te Whare Tapa Wha, which focuses on the individual's total well-being (physical, spiritual, mental and whanau concepts). We will also achieve key principles relating to the Treaty of Waitangi articles i.e. by allowing whanau to participate in their own care plan development. Also promoting the protection of Maori whanau dreams and aspirations (Tino Rangatiratanga); and the partnership between ourselves as a Kaupapa Maori Service Provider and the wider community.

Target ethnic groups: Specific ethnic group Māori, Other: 20% other ethnicities

Promoting SmokeFree: We would invite a Smoking Cessation representative to come and present to the Community on support networks available to them and how to access their services.
