

## Consultation document

### Local boards

This section sets out the key proposed activities for each local board area for 2019/2020. We are seeking your feedback on whether we have got the focus right.

For more information relating to your local area, please see section xx of the supporting information for this consultation document.

Local Board	Key focus
<p>Ōrākei</p>	<p>In 2019/2020, we plan to invest \$7.2 million to renew and develop assets and \$11.1 million to maintain and operate assets as well as provide local programmes and initiatives.</p> <p>We will continue to deliver the projects you have already identified through the Local Board Plan, and are not proposing major changes to existing budgets or work programmes for 2019/2020.</p> <p>We will work with the community to enhance our unique ecological environments. This includes projects such as pest eradication in partnership with the Eastern Bays Songbird Initiative. We will also continue to implement our local parks concept plans, including the Colin Maiden Precinct, Kupe South Reserve and Churchill Park. Along with residents and businesses we are planning to clean Ōkahu Bay up to a Blue Flag Ecological excellence standard.</p> <p>This year, with significant funding from the Board, development will start on the link from Gowing Drive and Kohimarama Road to the Glen Innes to Tāmaki Drive Shared Path. We were successful in advocating for its inclusion in Auckland Transport’s Regional Land Transport Plan. We are also proposing to further implement our Local Paths Plan to provide safe walking and cycling access.</p> <p>We want your support so that we can advocate to Auckland Transport for a bylaw to eliminate heavy truck and trailer units from using our local roads as a through-route to and from the port.</p>
