Highlights - HNZ home visit Jolson Rd, Mt Wellington

Visiting the new homes built in Mt Wellington in January was an opportunity to look at a warmer, dryer healthier home that has the potential to lower power bills, we were impressed with the size and quality of these new homes and that they even included a back yard.

This site involved removing two older homes and replacing them with 6 x 3-bedroom homes, we certainly support the provision of these Housing New Zealand homes to the local neighborhood, we were informed that all homes being built in this area would be allocated to social housing.
