

Support for the granting of a lease to the Omaha Beach Golf Club as publicly notified.

Public notification as below.

Pursuant to the provisions of the Local Government Act 2002 and the Reserves Act 1977, the Rodney Local Board proposes to grant a new community lease and non-exclusive licence to occupy to Omaha Beach Golf Club Incorporated on portions of land at Mangatawhiri Road, Omaha Drive and North West Anchorage, Omaha legally described as Section 1 SO 524772, Lot 906 DP 206443, Lot 1 DP 167651, Lot 680 DP 142129 and Lot 1 DP 166169. The land is held in fee simple by Auckland Council.

The Omaha Beach Golf Club add significantly to the local community both aesthetically and by way of community spirit. The entire course leased land adjoins The Taniko Forest, a significant scientific natural bush land as well as the Whangateau Harbour giving a buffer between these natural landscape features and the Omaha housing. The Golf Club takes this matter seriously, and treats the environment that they lease with respect in order not to upset the natural function of these two important features of the environment that we have in Omaha. The southern 9 holes of the Golf Course is irrigated by all the residual clean waste water from the Jones Road waste water facility, which collects waste water from both Omaha and Point Wells.
