Ōtara- Papatoetoe Local Board feedback on the Auckland Film Protocol

Submission points

The Ōtara-Papatoetoe Local Board would like to see the following prioritised:

Earlier Notification

The board does not support the decision made by the Environment and Community Committee to support the current film permit timeframes. The board receives film notifications very late and as a result are put in an unwelcomed position where we are pressured to make discussions without receiving quality advice. We note in the review that anyone wanting to film on the Maunga must engage with the Tupuna Maunga Authority early on. We propose the same process for local boards.

Maori Responsiveness: Filming impact on lakes, waterways and harbours

It is the role of Mana Whenua as kaitiaki to protect the Awa and visitors of the Awa. Therefore, they should also be involved in blessing the activity beforehand and lifting the protection on leaving (Tapu & Noa).

Local Board Acknowledgement

Local Board’s are the governors of our local parks, where most of the filming takes place. We spend ratepayer’s money on their behalf maintaining and upgrading these parks. Therefore, Local Board consent to filming should be conditional to the acknowledgment of the relevant Local Board (and not Auckland Council alone).

The Ōtara- Papatoetoe Local Boards would like to thank you for your consideration
Memo

To: Otara Papatoetoe Local Board
From: Noel Reardon, Manager Heritage

St Saviour’s Chapel and Papatoetoe Orphan’s Home and School
80 Wylie Road, Papatoetoe

Request.
The Otara Papatoetoe Local board have requested that officers provide advice on the heritage status of the property at 80 Wylie Road, Papatoetoe and options for future use, including the constraints and limitations of the current owners.

Heritage status of place

St Saviour’s Chapel (ID 124) and Papatoetoe Orphan’s Home (ID 125) were first scheduled for their heritage values in the Manukau City Proposed District Plan when it was notified in 1995.

The site at 80 Wylie Road Papatoetoe is scheduled as a Category A* in the Unitary Plan. Category A* places are the most significant scheduled historic heritage places from legacy district and regional plans. Category A* is an interim category of scheduling until a comprehensive re-evaluation of these places is undertaken and their category status is addressed through a plan change process.

Through the Unitary Plan process the extent of scheduling extends across the entire site and includes all buildings, structures and features, both inside and out.

Currently the site is subject to Plan Change 27 which was notified on 30 May 2019. This plan change seeks to refine the scheduling of the place by identifying all buildings and structures built after 1962 (the date the orphanage ceased operation) as exclusions. Exclusions are subject to a different set of controls, and in some cases changes to these places may not require consent.

Plan Change 27 also seeks to amend the category of scheduling from A* to A following a review of the values of the place.

Representatives from the church have submitted to Plan Change 27.

Heritage New Zealand Pouhere Taonga (HNZPT)

St Saviour’s Chapel and Papatoetoe Orphans Home are both (separately) recognised in the New Zealand Heritage List/Rārangi Kōrero, which is managed by HNZPT. The orphan’s home was entered onto the List in 1994 as a Category I place as was the chapel.

Options for re-use

The Unitary Plan objectives and policies relating to scheduled historic heritage places (D17.2 and D17.3) enable appropriate adaptation and change of use where it supports retention of heritage values. The policies also support subdivision where it enables retention of a scheduled place.
Council heritage officers and the Manukau Pacific Islanders Presbyterian Church Group have met twice to discuss options for the development and use of the former orphanage, including options for subdivision and re-use of the heritage buildings. These discussions have been productive and will be ongoing through Plan Change 27 and beyond.

**Constraints and limitations for current owners**

At present, any works to any building or structure on site requires a resource consent.

If all changes proposed in Plan Change 27 are made operative, most of these activities will remain the same, however, demolition above 70% will become a Prohibited Activity, as will relocation beyond the site.

If the plan change is made operative as notified, it will also enable modification or demolition of any post-1962 free-standing buildings or structures as a Permitted activity.
