<b>Maungakiekie-Tāmaki Local Board</b>	
In 2020/2021, we plan to invest \$9.4 million to renew and develop assets and \$15 million to maintain and operate assets as well as provide local programmes and initiatives.	
<b>What we've been doing</b> <p>Each year we deliver activities and services in your local board area. These are based on our Local Board Plan, which sets our three-year direction for the local board.</p> <p>In 2019/2020, we completed the Tāmaki Path project, which is a shared path from Panmure Wharf to Point England Reserve.</p> <p>We began funding a local history of Maungakiekie-Tāmaki project to celebrate our heritage and capture the stories of our area.</p> <p>We also began planning for the Waikaraka Park Reserve Management Plan and Masterplan. The first phase of consultation has been completed, with the second phase to begin next year.</p> <p>We were also proud to support several strategic partnerships, including the establishment of a community bike hub at Maybury Reserve by Ecomatters Trust.</p>	<b>Our priorities for 2020/2021</b> <p>We're not proposing major changes to existing work programmes for 2020/2021 as we continue to deliver the projects identified in our Local Board Plan.</p> <p>We will continue to support multi-year projects such as development of the local history of Maungakiekie-Tāmaki and the local Urban Forest (Ngahere) Strategy.</p> <p>We also intend to increase our focus on improving walking and cycling connections.</p> <p>Protecting our environment for future generations remains a priority focus area, including education and ecological restoration.</p>
The Glen Innes Business Association is proposing to expand the boundary of the Business Improvement District (BID) across two local board boundaries, Maungakiekie-Tāmaki and Ōrākei. If the boundary expansion is successful the Glen Innes BID programme will represent about 190 business ratepayers and owners, with a proposed BID targeted rate of \$250,000 as of 1 July 2020.
