

Quarterly Ship Speed Report

October to December 2019

The average quarterly speed slightly increased in 2019 Q4 to 10.00 knots due to a few high outliers. However, average quarterly vessel speeds for Q4 have all remained at no more than 10.00 knots.

The monthly averages between October and December ranged from 9.91 to 10.20 knots. The lowest average of the quarter was November with 9.86 knots. Overall, speeds were all close to the 10 knot mark throughout the quarter.
