Tāmaki Estuary Environmental Forum (TEEF)

A Local Board funded initiative
Past, Present & Future

Where we have been:

- The Forum has been running since 1988. Over the past two years the Forum has evolved through widening participation, a stronger sense of direction, renewed support from local boards and Council, and improved structure.

- Environmental conditions have worsened over the past two decades, reflecting changes in land use, population growth, and increased pressures on ecological systems.

Where we are now:

- 150,000 new residents across 5 Local Boards over the last 20 years.

- Increased surface run-off and poor soil management practices have led to a large sediment problem in the estuary.

- Since 2017, we have more than doubled the number of organisations who participate in the Forum

What we want to achieve:

Targets:
- Remove plastics
- Improve water quality
- Protect biodiversity
- Create a ‘valued place’

Relationships:
- Meaningful relationships.
- Collaboration with local government.
- Mana Whenua.
- Community

Measurables:
- # of participants
- Funding received
- # of species and population increases.
- Marine Report Card
Tāmaki Forum focus

Our Four Pillars

Community Outreach
How do we foster a sense of community through environmental management?
How can we improve engagement?

Plastic Reduction
How can we transition from the ‘ambulance at the bottom of the cliff’ to stopping plastics at the source?
How do we measure our success?

Innovation / Partners
Who are our partners?
Who do we want to partner with?
How can we promote innovative ideas?

Healthy Ecosystems
How can we work with our communities and local government to manage native species and restore natural ecosystems?
2020 Work Programme

**Water Quality:**
- Tamaki Clean Streams Project – open source water quality testing.
- Advocacy for proper stormwater management.
- Education in schools & during Seaweek.
- Attending conferences & events to advocate for the Tamaki Estuary.
- Participation in sedimentation mitigation initiatives

**Plastics:**
- Continued collaboration with CVNZ to run a series of beach / coastal clean ups
- Continue ‘Nurdle Hunt’ Project.
- Continue to support our entrepreneurial and academic partners; enabling them to innovate to solve issues.
- Targeted Litter Trap programme development.

**Biodiversity:**
- Commission more research into the local bird ecology (participate in data collection).
- Continue strong citizen science initiatives.
- Build relationships and initiate projects with tertiary education institutes and with Enviroschools
- Continue to work alongside Auckland Council Biodiversity Team.
- Host more speakers at Forum meetings.
- Support TEEF participants/organisations working in pest control.
What we can do for you

• Provide Local Boards with tangible solutions to local environmental problems.

• Together, on the ground approach to engaging the public – real relationships with real people.

• Provide connections between communities, neighbourhoods and Local Board areas.

• Bring together the people that share a vision to restore the Tamaki Estuary to its former glory.

• Coordinate efforts to achieve maximum gain.
How you can help us succeed

• Help us identify issues affecting the Tāmaki Estuary, so we can raise them at Forum meetings and provide you with feedback.

• Support TEEF’s delivery of best practice community-led projects that are aligned with Local Board and Auckland Council objectives.

• Link TEEF with groups active in your Local Board area.

• Continue working together in achieving improvements in local environmental issues. Ngā mihi.
tēnā koutou – uiuinga / questions?
Item 8.2

Raise Up Onehunga
Panmure Family Fun Day
The Fun Day and Raft Race is on 1st March. Join Keith and the team on our stall and or get involved with the raft build.

https://www.popintopanmure.co.nz/panmure-basin-fun-day

Our funders and sponsors
We thank all of our funders and sponsors. Their funding support enables our members to contribute their volunteer efforts towards the substantial renovations and upgrades to our building, creating a first-class community asset.

An order for 600 rat traps from the Pest Free Howick group has been met with enthusiasm by members with the order well on the way to being filled.

Shed members have now produced in excess of 3000 rat traps for various community groups.

Health and Safety
The way some are attempting to use the bench saws is causing concern. Please ask for assistance when cutting larger pieces of material and use the Push Sticks provided. We have a No Lost Fingers policy.

Duty Managers
Have you considered becoming a member of the duty manager team? The shed provide the necessary training and usually DM’s only have one duty per month. If you would like to volunteer please contact Don Morrison.
MEN'S SHED
Auckland East

Shed renovation progress
Alan and Mal have scored some great steel shelving and have already erected one unit adjacent to the East side roller door.

Mens Shed administration
Our vision
To facilitate a thriving community shed.

Our land line number is 09 880 9800
An answer phone has been set up for out of hours messages.

Vision and Strategy program
Our vision
"To facilitate a thriving community shed".
One of the first priorities for the new board is to continue with our Vision and Strategy program. It is planned to have the strategy part well advanced before the end of the year.

Shed BBQ's
The Shed BBQ lunches are on the last Friday of the Month at 12.00 with the next one on Friday 27th March.
BBQ breakfasts are the second Tuesday of the month at 0800 with the next one on Tuesday 10th March.
Members are requested to make a $2 donation for lunch and a $5 donation for breakfast.

Shed Community Projects
Community groups are invited to submit projects for consideration.
Shed members have been as busy as ever on community projects.
Otto ably assisted by others has been making planter boxes for the St. heliers Library.

New shelving in place.
A new drop saw work space has been custom built by the New East roller door

New drop saw work space

Otto with planter boxes
Rodger is still making over more interesting Water Walls – onto #13 now.

Public open day 10am to 3pm February 29th – March 1st Phone Becky on 570 6432
