Te Kawerau Ā Maki	Scott Lomas scott.lomas@tekawerau.iwi.nz  Robin Taua-Gordon robin.taua-gordon@tekawerau.iwi.nz	No	Yes	Yes	Thank you for the email and information. I can confirm that Te Kawerau are interested in this project. Engagement sought/preferred at this point is by regular email updates.  Te Kawerau are very supportive for the removal of these pines and support the remains of the trees being utilised as habitat for local native fauna.  My only concern here would be if this impacted on the flight paths/roosting/perching spots of native bats? If I recall correctly, they prefer the height of pine trees and hollow branches that can often be found within upper reaches of pine.
