### Petition from Snells Beach Residents and visitors.

We the undersigned are opposed to and object to the planned removal of the concrete pathway and picnic area at the northern end of Snells Beach and the relocation of it.

We believe shorebirds are adapted to the present environment which is supported by pest and pet control and the provision of a pathway for people to use rather than foreshore roosting areas.

Cost concerns; the proposal would cause unnecessary expenditure in removing such a valued well used pathway.

Disruption of restful people friendly environment.

Disruption wildlife in the area.
