- a) **tuku / provide views on the draft Contributions Policy 2025 for inclusion in the Governing Body decision report on 1 May 2025 as follows:**
 - i) **support the draft Contributions Policy 2025 as it allows an equitable and proportionate share of the total cost of growth-related capital expenditure to be recovered from the development community**
 - ii) **support capital expenditure planned over a longer horizon (30 years) as otherwise the cost of developing necessary infrastructure falls on existing ratepayers**
 - iii) **support the draft Contributions Policy 2025 as it supports the adopted Future Development Strategy highlighting the key locations to focus our limited resources**
 - iv) **request the following changes are made to Schedule 8 as soon as practical:**
 - A) **Te Kori Scott Point Stage 2 and 3 needs to be included, currently only stage 1B is included in Schedule 8. The entire park (Te Kori Scott Point, formally Scott Point Sustainable Sports Park) was master planned, consulted on and adopted. Stage 2 and stage 3 include vital community amenities such as hard courts, a playground and a nature area. These are essential for a fast growing and densely developed community and, there is a community expectation of delivery of stage 2 and 3**

- B) the Library and Community Centre (Whenuapai) project is expected to start after 30 June 2034. Given the fast growth in Whenuapai we request that this project is brought forward into the current decade. The area is rapidly developing and there is no community centre

- d) request that consideration be given to reviewing the DC policy to areas outside the Investment Priority Areas*
- e) note large-scale development is happening all around our city and there is a need that the development contributions received cover all associated growth-related capital expenditure. Many of these new developments are very intensified so residents both need and expect access to well developed parks and open spaces, roading, active transport modes and stormwater.*
